About the Author

Now writing under the pen-name of HARUN YAHYA, Adnan Oktar was born in Ankara in 1956. Having completed his primary and secondary education in Ankara, he studied arts at Istanbul's Mimar Sinan University and philosophy at Istanbul University. Since the 1980s, he has published many books on political, scientific, and faith-related issues. Harun Yahya is well-known as the author of important works disclosing the imposture of evolutionists, their invalid claims, and the dark liaisons between Darwinism and such bloody ideologies as fascism and communism.

Harun Yahya's works, translated into 57 different languages, constitute a collection for a total of more than 45,000 pages with 30,000 illustrations.

His pen-name is a composite of the names Harun (Aaron) and Yahya (John), in memory of the two esteemed prophets who fought against their peoples' lack of faith. The Prophet's (may Allah bless him and grant him peace) seal on his books' covers is symbolic and is linked to their contents. It represents the Qur'an (the Final Scripture) and Prophet Muhammad (may Allah bless him and grant him peace), last of the prophets. Under the guidance of the Qur'an and the Sunnah (teachings of the Prophet), the author makes it his purpose to disprove each fundamental tenet of irreligious ideologies and to have the "last word," so as to completely silence the objections raised against religion. He uses the seal of the final Prophet (may Allah bless him and grant him peace), who attained ultimate wisdom and moral perfection, as a sign of his intention to offer the last word.

All of Harun Yahya's works share one single goal: to convey the Qur'an's message, encourage readers to consider basic faith-related issues such as Allah's existence and unity and the Hereafter; and to expose irreligious systems' feeble foundations and perverted ideologies.

Harun Yahya enjoys a wide readership in many countries, from India to America, England to Indonesia, Poland to Bosnia, Spain to Brazil, Malaysia to Italy, France to Bulgaria and Russia. Some of his books are available in English, French, German, Spanish, Italian, Portuguese, Urdu, Arabic, Albanian, Chinese, Swahili, Hausa, Dhivehi (spoken in Mauritius), Russian, Serbo-Croat (Bosnian), Polish, Malay, Uygur Turkish, Indonesian, Bengali, Danish and Swedish.

Greatly appreciated all around the world, these works have been instrumental in many people recovering faith in Allah and gaining deeper insights into their faith. His books' wisdom and sincerity, together with a distinct style that's easy to understand, directly affect anyone who reads them. Those who seriously consider these books, can no longer advocate atheism or any other perverted ideology or materialistic philosophy, since these books are characterized by rapid effectiveness, definite results, and irrefutability. Even if they continue to do so, it will be only a sentimental insistence, since these books refute such ideologies

from their very foundations. All contemporary movements of denial are now ideologically defeated, thanks to the books written by Harun Yahya.

This is no doubt a result of the Qur'an's wisdom and lucidity. The author modestly intends to serve as a means in humanity's search for Allah's right path. No material gain is sought in the publication of these works.

Those who encourage others to read these books, to open their minds and hearts and guide them to become more devoted servants of Allah, render an invaluable service.

Meanwhile, it would only be a waste of time and energy to propagate other books that create confusion in people's minds, lead them into ideological chaos, and that clearly have no strong and precise effects in removing the doubts in people's hearts, as also verified from previous experience. It is impossible for books devised to emphasize the author's literary power rather than the noble goal of saving people from loss of faith, to have such a great effect. Those who doubt this can readily see that the sole aim of Harun Yahya's books is to overcome disbelief and to disseminate the Qur'an's moral values. The success and impact of this service are manifested in the readers' conviction.

One point should be kept in mind: The main reason for the continuing cruelty, conflict, and other ordeals endured by the vast majority of people is the ideological prevalence of disbelief. This can be ended only with the ideological defeat of disbelief and by conveying the wonders of creation and Qur'anic morality so that people can live by it. Considering the state of the world today, leading into a downward spiral of violence, corruption and conflict, clearly this service must be provided speedily and effectively, or it may be too late.

In this effort, the books of Harun Yahya assume a leading role. By the will of Allah, these books will be a means through which people in the twenty-first century will attain the peace, justice, and happiness promised in the Qur'an.

INTRODUCTION

This book is the second volume of *Global Impact of the Works of Harun Yahya*. Since the first volume was published, the number of his works, the languages into which they have been translated, the magazines and newspapers in which his articles have appeared, and the television channels and Internet pages on which his documentaries have been aired have increased considerably.

One of the main reasons for this continuing interest in Harun Yahya's publications is that his more than 250 books on scientific, religious, and political subjects alter the reader's perspective on the world. Through his scientific books revealing the proofs of creation in the universe, works describing Islamic moral values in the light of Qur'anic verses, and political works revealing the hidden aspects of global political developments and historical events, he speaks to millions of people from all nations, faiths, and languages. As a result, his works have engendered a broad response from all over the world.

Harun Yahya's books can be found in booksellers in most countries of the world, including the United States of America, Great Britain, Russia, Kazakhstan, South Africa, Brazil, Indonesia, Singapore, Malaysia, France, Nigeria, Canada and Lebanon, and articles (in translation) appear in countless newspapers and magazines, and the documentaries and educational tapes inspired by his works are the subject of great interest on radio and television channels broadcasting across the world.

His works have been translated into English, French, German, Italian, Russian, Chinese, Spanish, Arabic, Portuguese, Polish, Serbo-Croat, Albanian, Indonesian, Malay, Urdu, Estonian, Swahili, Hausa, Bulgarian, Serbian, Uyghur, Bengali, and other languages. This translation project continues so that everyone can be made aware of Allah's (God's) existence, the beauty of Qur'anic moral values, the reality of the Hereafter, and the falsehood that is Darwinism.

Harun Yahya seeks to make his works, which are intended to communicate the message of the Qur'an across the world and thus encourage people to reflect on Allah's existence and oneness and similar matters, easily accessible to all readers. Websites set up for that purpose serve thousands of people every day by offering—for free—the full texts of his more than 250 books along with all of their accompanying illustrations, audio presentations, and documentary films. Such a service is found nowhere else on the Internet. Other sites that introduce books merely offer brief extracts or just list the main chapter headings and, apart from exceptional circumstances, do not provide the full texts free of charge. Yet all the author's works can easily be found on the Harun Yahya websites, and there is no intention to make any financial profit out of them.

This book seeks to inform readers of the Harun Yahya collection's worldwide effect, with its wide range from books to documentary films. Contained within its pages are listed only a limited number of Internet pages belonging to Islamic organizations, scientific

institutions, and universities that carry his works, readers' letters from all over the world, and the reactions to the author's considerable influence at fairs and conferences where they are displayed. That influence is, in fact, far greater than one could estimate.

PEOPLE WHO HAVE CONVERTED OR HAVE HAD THEIR FAITH DEEPENED THROUGH THE WORKS OF HARUN YAHYA

One of the most significant elements that reveal the global effect of Harun Yahya's work is the large number of people who have converted or have had their faith deepened. Many readers send letters and messages on this subject. The small sample quoted here represents just a few examples of this great influence.

I read all your books in Russian. I live in Siberia. My wife is Russian. **With the help of your books and of the Qur'an she selected Islam as her faith.** I am very happy at the existence of such a worthy person, who explains our faith in the light of verses from the Qur'an and shows us the true path. May Allah multiply your endeavors and further enhance your impact on mankind.

Mohammad Arif – Riyadh

As a Muslim, my faith in the religion has been greatly strengthened by your books. May Allah reward you. What I learnt, I want to share with my million muslim brothers who cannot read English. I therefore ask for your permission to translate some of your work into Hausa language, my mother tongue and one of the most populous language in Africa. As a lawyer, I know that I need your permission. Ma'assalam.

Nuraddeen Ayagi - Nigeria

Greetings. I am a Muslim from Kosovo. **What my life was like before is unimportant. But thanks to Harun Yahya's books I feel "even more" of a Muslim. In this way I have begun to regularly perform the prayer.** I did not perform it on a regular basis previously. From heading towards the darkness I see myself heading more towards the truth. Thanks to Harun Yahya's books I see the world very differently. With Allah's help I am translating a book from English into Albanian. I will send it to you, and readers from Albania can thus benefit from it. I wish you the best of everything.

Ali Avdiu - Kosovo

After personally completing the translation of some of Harun Yahya's books I felt that my faith had grown stronger and I vowed, like Harun Yahya, to dedicate my life to Allah. Allah willing, the works of Harun Yahya will create a change in Thailand in the same way that changes have taken place in Turkish society in recent years.

Zaki - Thailand

Hello, **I have recently converted to Islam. Thanks be to Allah. Mr. Yahya's work played a major role in this.** That is why I wish to send him my thanks... I am astonished by the clarity I have acquired by means of the subjects articulated by Harun Yahya, and millions of other people are still confused by these matters... Thank you for your time.

Tom Malies

I have just read The Collapse of the Theory of Evolution, and it is marvelous. Every question I have ever thought of (regarding subjects I studied in biology classes at high school) and which I could never find an answer to have now been answered. The most evident of these was bacteria building immunity to antibiotics. Thank you for making your book so clear and free of charge. **Thanks to this, my faith in God has grown even stronger.**

Christopher

Masha Allah, this is a beautiful website. **Your work has been very beneficial to me. In particular, the book "The Truth of the Life of this World" really inspired me to connect with Allah.** I think it is very noble that you are making videos, audios and full text available to people free of charge. Many are interested in getting to know Allah but not all can afford to pay to access this information. Jazakhallu khair, may Allah reward you abundantly for all your efforts and continue to give you the strength and the ability to spread Islam to all corners of the earth. Sr. Rahmah - Nigeria

I have read and witnessed a lot of your work... I have been searching for truth for ages but couldn't find it anywhere... people said things but it didn't make any sense. ... **your books and articles make a lot of sense...** Thanks a lot for all you are doing for my Religion... May Allah Bless You with all His blessings and keep you and all of us steadfast... May we all bath in the sunshine of the Holy Qu'ran and may Islam rule the World.

Sardar Umair Ali Khan Saddozai - Pakistan

I have the pleasure of writing you and wish to inform you that it is more than a moral duty for me to be of help to you. **I, personally, benefited tremendously from those works of Harun Yahya.** Presently I downloaded more than thirty of those books from which I am much interested, and I am enjoying reading them always. **These write-ups made a great impact in my belief in Allah** because there was a time when, despite the fact that I have a good knowledge of Kitab Was-Sunnah, and thought in many Islamic Schools and engaged in a lot of Islamic public lectures, I was just saying my five daily prayers not because I believed in what I was doing, but just in the hope that there will be a time when Allah Ta'ala will reveal the truth to me. This is because **I was put into great confusion by those Darwinist assertions, which made me in dilemma in contrasting them with religious proclamations. But now, by Allah's mercy, through the works of Harun Yahya I am**

able to regain my full and sound belief in Allah Subhanahu Wata'alah and thrown those futile, absurd and incongruous claims behind my back. Hence, it is my moral duty to ensure that others too benefited from it and establish cordial relationship with their Creator. I will like to tell you that I will make my first attempt by contacting the Ameer of Muslim Students Society of Nigeria, Kaduna Polytechnic Chapter and see how he can assist me in announcing these works and making them known to all the students in the high schools nationwide through the National Body. I think this will make a good start. Further, I wish to tell you that I have a lot of friends who can make translations into so many languages available in Nigeria. So, there is no problem in that.

Musa Dayyib Harun - Nigeria

Salam, **your website has helped me establish a relationship with the Creator of the universe, confirm my faith,** and realize the true reality of life. Praise be to Allah and may Allah shower His blessing upon you for your noble efforts.

Adam Elder - USA

Until 2 months ago my friends and I were terrible sinners. We were always defeated by our lower selves. But one day I came across with the Harun Yahya web site and looked into it. I ordered his VCD films and watched them together with my friends. We all realized we had been in the wrong. As a result, the light of Almighty Allah entered our hearts. **We repented and decided to thenceforth live solely to be able to serve Allah.**

Switzerland

I really appreciate your works and studies and I love seeing the movies which you offer for free download! May Allah give you much reward for all efforts and grant you Paradise. I pray that not only for you, but for all the people that help you publishing your works. As you may have noticed I am already a Muslim. Anyway, **your works have much influence over me, they strengthened my Iman in Allah's Almightyness and faultless Creation of the World.** Your works are full of compact and highly understandable information, mashaAllah.

Bilal Chbib - Germany

May the mercy of Allah be upon you. I live in Albania. I came across with your works thanks to the internet. **These works change my world.** They are most interesting and realistic. What most affected me is your attitude towards different aspects of life inspired in you by the light of the Qur'an. **You have taught us a lot that we did not know before and enabled us to acquire a better understanding of true faith.** You have helped us implement the Qur'an. Your work is most splendid and I wish to encourage you in that field. May Allah bestow all His blessings on you and guide you to His true path. **Your works are the greatest reference sources of all those I have so far encountered and of the greatest assistance in helping me and everyone in Albania come to know Allah and comprehend His**

greatness. You may know that the media and the television provide the most corrupt education in Albania, and this mostly affects children. I think your materials are the most appropriate solution in this area. I am going to read your works for children which I downloaded from the internet the other day. I want to translate them.

Altin - Albania

Salam Alaykum! **On reading some of Harun Yahya's works and watching a few of his videos I realized I had found the truth I had been seeking for some time, and came to believe.** Until then I had a number of prejudiced ideas about the Turks and believed them not to be the best representatives of Islam. That was until I knew Harun Yahya... Harun Yahya is a devout Turk. I hope Allah will guide many people onto your path. May Allah give strength to Harun Yahya and his assistants. May Allah protect believers. May the greetings of Allah be upon you.

Redouan - Germany

I am greatly inspired by your works. **They have significantly increased my faith in Allah.** I want to buy all your English-language works. Can you tell me how to do this?

Shamil Khan - United Kingdom

Greetings to all my Muslim brothers. **This is an astonishing page that has changed my way of thinking and enabled me to see the truth.** My thanks to the author for setting up such a web site and changing people's lives. Insha'Allah, many more people will come to grasp the truth. There is no god but Allah, and Muhammad (saas) is His messenger.

Noor-nahar Hoque - United Kingdom

I cannot tell you how delighted I am to have made the acquaintance of brother Harun Yahya. **I came from a Catholic family and, Alhamdulillah, converted to Islam 7 years ago. Harun Yahya's articles were of great help in my finding the truth.**

Jalil Al Biruani - Peru

My name is Amir Afridi and I am from Pakistan. I have seen your work and believe me I don't believe my eyes to see this kind of work first time in my life. It was my luck that I come across your program playing on a channel Indus Vision by just surfing my TV. I can't even imagine that this kind of work I have seen in my life for just Islam. Because what we are looking today we see some boring program on TV and some books that we don't even read. I am 22 year old and I had two problems because of reading and having some knowledge I started to believe in that Jesus the Isa will not come to the earth again. And that every living being is made by the process of evolution and I have worked very hard to prove it as well. But what totally surprised me is this that I noted your web site from the channel and I surf it and

I downloaded some books concerning my matters. But I don't know how can I be thankful to Mr. Harun Yahya. **I read his books about Jesus and about Darwinism. It made me but I would say just change me. His work is marvelous.** First of all I thank you and the team working behind. Please tell me that what I can do for Islam. How you people will help me. **And in the last inform Mr. Harun Yahya about me that you have made a person muslim by your work.** And anyone cannot give you some thing for what you are doing but only one the God Allah. Your fan and slave.

Amir Afridi - Pakistan

Dear brothers in Islam, I send you my heartfelt greetings on behalf of our Muslim brothers living in Russia. After being freed from 70 years of communist oppression, the Russian Muslims rediscovered their own identity. They discovered what Islam and living as a Muslim mean. Yet since they lacked sufficient information and people of knowledge to strengthen their faith, Russian Muslims again experienced difficult times. **Praise be to Allah; after your books had been translated into Russian, people's faith began growing stronger in the light of the scientific evidence. Non-Muslims are adopting Islam after reading your books and (ethnic) Muslims with prejudiced ideas about Islam realize how false those preconceptions are... Allah (swt) has sent you as a guide to the true path for these people, and the translation of your books into Russian has enlightened people and been a means for right guidance.** The sincerity and purity in your works illuminate people's hearts, shed great light and cast away the dust that has collected over many years. The number of people in Russia adopting Islam as a way of life is growing by the day, though there are many who use Islam for their own interests and advantage. Our intention is not to complain but solely to enlighten the community of Islam. As Muslims living in Russia we perhaps have a greater need for Islamic literature than other countries. The Russian-language literature we have contains very little information, or else is full of translation errors. Colleagues of ours who have been educated in Arab countries are migrating to the big cities because of economic difficulties, and are teaching in mosques and madrassas there. Bashkortostan is a republic that is rich in terms of nature but economically poor. Muslim congregations are unable to provide Islamic education due to economic difficulties, or else are forced to close under the weight of heavy taxes. We try to enlighten people by using the literature we have. But we would ask for your help in making this service a more lively one and in spreading it to a larger audience. We would ask you, if possible, to send us your Russian-language books, videos and audio cassettes. There is an Azeri brother of ours here who was educated in Turkey, and thanks to him we are able to read and understand some Turkish works. We would be pleased to receive copies of your Turkish-language works that have not been translated into Russian. One last request is that you not misunderstand these requests, but treat them with understanding. Our deepest thanks and respects for all you are doing. May the mercy and abundance of Allah be upon you.

Biktaşev Ilgiz (Abdulahk) - Russia

I am sending you this message from Burnley, England. Harun Yahya's works inspire me. **A while ago I departed from the true path. Thanks to brother Harun's web site I turned back towards the true path.** I would like to meet and thank him in person. May Allah reward you.

Sami - United Kingdom

As a recent convert (revert) to Islam I was recommended this site. This is truly fantastic and is full of fantastic information. Harun Yahya has certainly helped make the transition to Islam a lot easier.

REPORTS IN THE WORLD PRESS

Harun Yahya's works, which expose that the theory of evolution is a deception, have attracted the attention of the international press. Several press organizations have devoted considerable space to reporting on conferences and books dealing with how twentieth-century science has demolished the theory of evolution; others have reviewed these books. In addition, various publishing organs have presented his works on other subjects to their readers as reports.

USA – *NATIONAL GEOGRAPHIC*

November 2004

The November 2004 English and German editions of the well-known *National Geographic* magazine featured a cover story on "Was Darwin Wrong?" Mentioning individuals and groups that reveal the theory of evolution's errors, the report cited Harun Yahya and described the great unease caused by his works among materialist circles:

... Islamic creationists such as Harun Yahya, author of a recent volume titled *The Evolution Deceit*, who points to the six-day creation story in the Koran as literal truth and calls the theory of evolution "nothing but a deception imposed on us by the dominators of the world system."

USA - SCIENCE

The influence of his books on evolution, especially the internationally renowned *The Evolution Deceit*, is reflected in the well-known scientific evolutionary magazine *Science*. Robert Koenig's article (18 May 2001), "Creationism Takes Root Where Europe, Asia Meet," gives a lengthy account of Harun Yahya's struggle against this deception, the international success of his *The Evolution Deceit*, and the defeat of evolutionists in Turkey. The article emphasizes that this broad academic endeavor—"One of the world's strongest anti-evolution movements outside North America"—seeks to cause the collapse of the theory of evolution on the scientific front and states that it is making inroads in other Muslim countries. Koenig also discussed the international success of *The Evolution Deceit* and mentioned that some evolutionist scientists in Turkey complain that "books by Harun Yahya such as *The Evolution Deceit* have become more influential than textbooks in certain parts of Turkey." In the article, their concerns are expressed in these words "... Many evolutionist scientists fear they are losing ground to creationists in public opinion."

USA - NCSE REPORTS

NCSE Reports, a magazine published by The National Center for Science Education (based in Berkeley, California), is supported by the American Academy of Scientists. Although this group is essentially evolutionist, its November-December 1999 issue was devoted to Harun Yahya's works dealing with the theory of evolution's collapse. The cover bears the title "Islamic Scientific Creationism: A New Challenge in Turkey" and gives this introduction:

... Most representative is Harun Yahya's text *The Evolution Deceit*. The book comes in 2 versions - a large, attractive 370-page volume notable for its many full-color illustrations and slick appearance (Yahya 1997) and an abridged 128-page booklet with fewer illustrations, which was widely distributed free of charge to the public (Yahya 1998)...

Observing the awesome and orderly aspects of nature - the heavens and the stability of the earth, lightning and rain, useful plant and fruits, and so on - prompts common sense to conclude that all this must be designed for a purpose (13 ar-Rad 2, 3; 30 ar-Rum 20-27)...

WHO IS HARUN YAHYA? Adnan Oktar, using the pen-name "Harun Yahya" devoted his life to explaining the existence and the unity of Allah and the magnificence of the morals of the Qur'an. He spent all his life serving for this purpose from his early ages. He has never given up against the difficulties he faced. The biography states that Oktar entered university in 1979 and has authored over 100 books since 1986 - a remarkable output indeed for a single person.

THE UNITED KINGDOM - *NEW SCIENTIST*

The 22 April 2001 issue of the world-renowned *New Scientist*, which investigated creationist movements throughout the world, offered this interpretation of Harun Yahya and his books:

[Harun Yahya] is an international hero. His books have spread everywhere in the Islamic world. He has developed his own Islamic creationism.

This report described Harun Yahya as an “international hero.”

THE UNITED KINGDOM –

STUDENT BRITISH MEDICAL JOURNAL

The Student British Medical Journal is an international monthly student journal published by the British Medical Association, which produces over twenty-seven specialty journals. In the June 2001 edition, its book review section carried an analysis of *The Evolution Deceit*. Some of the comments on this four-star book—rated by the reviewer, University of Manchester medical student Amina Rahman—read as follows:

“*The Evolution Deceit* completely explodes the myths surrounding the theory, with nothing but evidence-based scientific research and knowledge.”

“The rapid advancement of science in the last century has only served to give a better perception of the immensity of the problem of the origin of life on earth rather than to its solution. Thousands of scientists around the world, particularly in the United States and Europe, defy the theory of evolution and have published many books on its invalidity. This is just one of them.”

“There are beautiful illustrations of fossils and wildlife and photos of famous scientists.”

“There is a section at the end of the book that is mind blowing with its simple but phenomenal concepts.”

“It is a book for anyone genuinely interested in understanding how life came to be, but be prepared to approach the subject with an open mind.”

AL WATAN

An article published in the 10 October 2003 edition of daily *Al Watan* devoted considerable space to the Arabic-language edition of *A Chain of Miracles*. The report emphasized how the miracles that Allah has brought into being are revealed in great detail, gave a short account of the author's life, and described the book's purpose, as given below:

In this book we gave various examples from the living and non-living universe; our goal is to be a means in making people look at the universe and take heed. Actually these are only mere drops, for the entire universe abounds with these miracles. These seen signs are paths to believers' faith in Allah.

GERMANY – ENCYCLOPAEDIA OF MATHEMATICS

The German-language Encyclopaedia of Mathematics website considers the theory of evolution in the Islamic world in its "Creation" section, which also provides information about Harun Yahya's works. It notes that his works have an especially large readership in Indonesia, the most populous Muslim country, and Malaysia.

AZERBAIJAN - ULUS NEWSPAPER

Ulus carried a report by Hasret Rustemov in which *Perished Nations* was reviewed. In this article, "A New Book about the Wisdom of the Qur'an," Rustemov said the following:

(...) It is genuinely very difficult at this time to encounter any scientific literature based on the Qur'an. In this book the author [Harun Yahya] describes the sudden destruction of ancient civilizations that existed before the Qur'an and the way their peoples were wiped off the face of the earth through the relevant verses and the results of the latest research in archaeology, geography, history and other sciences. The author many times notes that the Qur'an is a book sent down by Allah and the way of adhering to the truth. Many books by

Western scholars about the destruction of people have been published, but what makes this book different from the others is not an investigation into the reasons why very different peoples perished, but the way these events written in the Qur'an are described in a more accessible manner.

... Becoming acquainted with these works alone shows how devotedly he works in order to achieve that end. In my view, this book will attract the interest not just of those with an interest in religion, but also of people interested in sociology, history and philosophy.

**IBERR – INTERNATIONAL BOARD FOR EDUCATION RESEARCH
AND RESOURCES**

October 2002

IBERR, an umbrella organization for Islamic educational institutions in North America, Great Britain, South Africa, and elsewhere, published an article on Harun Yahya in its monthly bulletin. Chaired by Yusuf Islam, IBERR plays a significant role in determining the syllabuses of Islamic schools worldwide and uses Harun Yahya's works to carry out its activities. The report describes his works in these terms:

“HARUN YAHYA: ISLAMIC WRITER EXTRAORDINAIRE!

Under the pen name of Harun Yahya, the author has published over a hundred books on a wide range of faith-related issues. An important body of his work deals with the materialistic world-view and its impact on world history and politics.

Harun Yahya's extensive range of books emphasizes most powerfully Allah's message to man. Firmly grounded in the Qur'an, and using the latest scientific methods, Harun Yahya's books lucidly illustrate the miracle of Creation and the innumerable benefits that Allah bestows upon us. Evidence is convincingly gathered by reflecting on the miracles of our own bodies and also from the rich environment that Allah has created for our use. Brilliant colour photography, graphic illustrations and a lucid style of writing logically point out to the reader the Infinite Mercy of Allah!

At its 2004 meeting in Qatar, IBERR examined Harun Yahya's work and discussed whether his books should be included in the syllabuses of IBERR-affiliated schools. Speakers stated that these works were an important component of the syllabus in various schools, such as Islamic schools in Nigeria. Harun Yahya's works attract considerable interest from both students and teachers.

This newspaper, which reported on the IBERR assembly, provided detailed information about the meeting's activities. According to it, an important address on “educational resources,” based on Harun Yahya's works, was given.

HOLLAND – ISIM NEWSLETTER

December 2002

The December 2002 edition of the ISIM Newsletter, published monthly by the Holland-based International Institute for the Study of Islam in the Modern World, carried an article by Dr. Martin Riexinger of Freiburg University. Entitled “The Islamic Creationism of Harun Yahya,” it contained references to the global impact of his works:

For some time Islamic publishing in the West has been associated with pamphlets in awkward English printed on pulp. Strolling through Islamic bookshops in Britain one immediately realizes how things have changed: beautifully edited books are offered for considerable prices. A notable part of these publications is dedicated to the defence of Islam against the challenges of Christianity and materialism. Outstanding examples for this new tendency are the writings of the prolific Turkish author Harun Yahya (pseudonym of Adnan Oktar), whose list of Turkish publications includes about 180 titles, most of them dedicated to the refutation of Darwinism.

The bulk of the publications by Harun Yahya just reiterates adorned with beautiful illustrations the basic claims proposed in his most popular work *Evrin Teorisinin Çöküşü* (The Evolution Deceit) with detailed reference to certain phenomena. ... His articles appear on many Islamic homepages kept by organizations or individuals. His international reputation is due to the extensive use of the internet. He may thus be considered the first Islamic intellectual who has based his career on the use of this most up-to-date technology.

RUSSIA – THE ISLAM.RU NEWS AGENCY

Islam Denounces Terrorism (in Russian)

Russia’s www.islam.ru is one of the country’s largest Islamic websites. It has reported on the widespread interest generated by Harun Yahya’s works:

STATE DUMA READS BOOKS BY HARUN YAHYA

The foundation of scholastic researchers of Harun Yahya prepared a Russian edition of the book “Islam condemns terror”. The reason underlying the publishing is the increasing Islamophobia of the society, supported by mass media and certain political circles. In order to change the attitude towards Islam – the religion of peace and good, above 1000 copies has [sic] been sent to the leaders of various government bodies, state organizations and educational institutions. The book was received by delegates of the State Duma, representatives of the Ministry of internal affairs, Ministry of defense, many TV channels, and also Russian mass media.

The representatives of the foundation remark that the book has caused a strong interest, making many of the political and public figures change their views on Islam and moral-ethical norms of the Muslims. In this connection there is a plan to carry out meetings of the

representatives of the government bodies to discuss the propaganda of the Islamic traditional principles in Russia. It should be noted that the documentary and the book “Islam condemns terror”, published a year ago, received generous responses and support all over the world, in the USA and some European countries in particular.

BOSNIA - OSLOBODJENJE

A report in the 24 June 2003 edition of *Oslobodjenje*, one of Bosnia’s largest dailies, reviewed the Bosnian-language edition of *The Evolution Deceit*. In summary, the report gave the following information:

In his book *The Evolution Deceit* Harun Yahya discusses the invalidity of Darwinism and its links to various other ideologies ... Following a brief history of the theory, he then goes on to demolish the theory in terms of both the evidence discovered in fossils and from the point of view of molecular biology, by setting out the scientific facts ... In the same way, the author shows that the theory is based on no scientific grounds, and definitively demolishes such scenarios of the theory of evolution as primitive life first appearing in the seas and then evolving and all other claims regarding evolution ... The author, who writes under the pen name Harun Yahya, was born in Ankara in 1956 and studied at the Istanbul Mimar Sinan University Faculty of Fine Arts and the Istanbul University Department of Philosophy. He has written a great many works on the subjects of faith, science and politics since the 1980s.

SAUDI ARABIA - AL RIYADH

The daily *Al Riyadh* has described Harun Yahya as one of Turkey’s most important thinkers. In summary, this article, which introduces the author’s website, contains the following details:

A JOURNEY IN HARUN YAHYA’S WEB SITE

Harun Yahya is one of Turkey’s best-known and important thinkers. He has written a large number of books, articles and documentary films. In these he refers to the miraculous aspects of the universe, all in the light of the Holy Qur’an and the Sunnah of the Prophet (saas). These works are available free of charge on the author’s website, so that everyone may obtain and read them. This site is indeed a very useful and important one. It is read all across the world. It is available not just in Turkish, but also in Arabic, Serbo-Croat, Indonesian, German, French, Russian and Malay.

The video section uses sounds and images to remind visitors of these miracles. Finally, all the works written by Harun Yahya are listed on a separate prospectus. Everyone can make use of these works, free of charge.

MOHEET WEBSITE

The international news portal Moheet carried Radhwan Adem's analysis of *The Miracle of Creation in Plants*. It contained the following lines:

Harun Yahya's book *The Miracle of Creation in Plants* recently emerged from the ar-Risale publishing house. In that book, the author refers to the interesting secrets and miracles of plants. In the introductory section the writer describes how plants form and refers to their complexity. We imagine plants to be very simple things, though they in fact possess a highly detailed and complex nature. These plants could not, of course, have appeared by chance, but emerged through the might and design of Allah, just as applies to the creation of all other living things. These books are exceedingly useful in calling people to faith and the way of Allah. With their simple and logical style they achieve an enormous success. After reading such books, the reader is left in no doubt in his heart or mind, and will inevitably abandon other material philosophies because these books demolish such materialist philosophies and ideas from their very roots. Harun Yahya and his colleagues have assumed a most important task in this field. By the will of Allah, these books will bring peace, security, justice and happiness to all mankind in the 21st century, as promised in the Holy Qur'an. At the end of all his books Harun Yahya devotes a special section to the theory of evolution. The reason for this is that the disasters inflicted on the world in the past as well as today all stem from that theory. That means that these terrible philosophies and ideas were all built on the theory. Over the course of the last 140 years Darwinism has played a major role in people's denial of the existence of Allah or else to doubt His existence. The rejection of the theory must therefore assume the form of a highly significant task for us. This valuable book can be easily read by all sections of society, and all can benefit from it. Nobody can deny the truths which it sets out.

INDONESIA - MINDA

September 2004

The September 2004 edition of the high-circulation *Minda* magazine carried a review of Harun Yahya's *Before You Regret*. Under the heading "Who Is Harun Yahya?" the article also gave a brief account of his life.

VENEZUELA - VENEZUELA'S ELECTRONIC NEWS

A report describing the wide interest in *Islam Denounces Terrorism* appeared in the news portal *Venezuela's Electronic News*. The report said that "the Venezuelan Muslim community is flocking to the Internet to get hold of Turkish author Harun Yahya's new book: '*Islam Denounces Terrorism*'." It went on to say the following about Harun Yahya and his major work *Islam Denounces Terrorism*:

The new book by highly-acclaimed Muslim intellectual Harun Yahya comes at a time when there is global confusion and misunderstanding of the Islamic faith and Yahya says he needs to set the record straight about what his religion really teaches and asks its followers to truthfully proclaim.

In “Islam Denounces Terrorism”, Harun Yahya accepts the challenge and already book critics around the world are saying that it is a “must read” for everyone who is looking to find the truth behind Islam’s role and the 9/11 terrorist attacks in the United States of America.

INDONESIA - PIKIRAN RAKYAT

August 2001

The *Pikiran Rakyat* magazine carried a review of *The Evolution Deceit*. Published in August 2001, it stressed the importance of the book’s contents.

CANADA - THE AMBITION MONTHLY

The Ambition Monthly, directed toward young Muslims in Canada and published since 1987, carried a review of *Perished Nations and Solution: The Values of the Qur’an*.

“Solution:

The Values of the Qur’an

“It is essential that we all listen to the voice of our conscience to rescue these people, and to make the world a place of justice, peace, security, prosperity and well-being. The only way to being conscientious is faith. Hence, the only solution to injustice, chaos, terror, genocide, hunger and oppression is to live by the Qur’an’s morality.”

CANADA - YOUNG MUSLIM ANNOUNCEMENT

In an announcement intended for its members, the *Young Muslim* foundation, which operates in Canada, recommended, among other books, Harun Yahya’s *The Evolution Deceit*. The books recommended in the announcement are described as:

“A great number of people’s lives have changed through the study of some of the following books.”

The messages reaching the Harun Yahya website confirm these words. Readers expressed their feelings in the following terms:

May God bless you for the good work of da'wah you are doing. I have been looking for a website to build my faith and I think inshaAllah I found it. *Omar Hussein, Kenya*

Thank you for your works. Thanks to them my faith has grown stronger. *Hameed Shahul, 14 September 2002*

Your work definitely increases my faith. *Aysha Ghar, India, 7 January 2003*

As a recent convert (revert) to Islam I was recommended this site. ... Harun Yahya has certainly helped make the transition to Islam a lot easier. *Joshua Wilson, United Kingdom, 25 February 2003*

UNITED KINGDOM - CRESCENT INTERNATIONAL

The Islamic newspaper Crescent International has published reviews of *The Truth of the Life of This World*, *The Miracle in the Ant*, *Solution: The Values of the Qur'an*, and other books by Harun Yahya.

Harun Yahya is an eminent Turkish scholar, the author of several books on evolution and creation. ... His website <http://www.harunyahya.org> has an impressive range of books and it states that Harun Yahya is the pen-name of Adnan Oktar, who devoted his life explaining the existence and unity of Allah. His two important books “*Evolution Deceit*” and “*Allah is known through Reason*” are basically on the refutation of Darwinism... Harun Yahya’s book *Evolution Deceit* is in fact a scientific approach to refute and reject Darwinism. “Harun Yahya’s *Evolution Deceit* is a scientific, intellectual and academic deathblow to the modern theory of evolution, a theory which has been largely discredited by scientific advances in the fields of physics, chemistry and genetics, among others.”

As a result of Harun Yahya’s extensive research, the myth of evolution crumbles into utter ruin. ... Harun Yahya’s pen is more than prolific.” Crescent International

This article by Hector Abu Dharr Manzolillo, a member of the Islamic Institute of the Americas, examined *The Evolution Deceit* in great detail. After investigating its effect in both Western societies and in the Muslim world, he stated that it was a major force in bringing the theory of evolution to an impasse.

“Throughout, the text is clear and readable and the marshalling and use of Qur'anic ayaat extremely effective. The book is also superbly presented, with numerous full-colour photographs, illustrations and diagrams, beautifully designed and produced on high-quality paper... This book ... is one of the few that is likely to be convincing to sceptical readers steeped in western propaganda, be they Muslim or non-Muslim.” (16-31 March 2000)

A message from a reader of *Crescent International*’s review of the book in question:

“The comment about Harun Yahya’s book in your last issue was wonderful. Mr. Yahya’s book is a reminder of the true nature of life. Besides, it is very well written and printed. They are quite attractive and convincing for young Muslims having western education. Both of my children are impressed by the book.” Mona Qureshi, England (01-15 April 2000)

In its review of *The Miracle in the Ant*, Harun Yahya was described as the most steadfast individual revealing the baseless nature of the theory of evolution (16-30 October 2000).

PAKISTAN – THE ISLAMIC RESEARCHES INSTITUTE WEBSITE
Allah Is Known through Reason (in Urdu)

In an article entitled “The Muslim Responses to Evolution,” Assistant Professor Abdul Majid of Pakistan’s Government Postgraduate College’s Zoology Department examined Harun Yahya’s works on this subject. The article, published on the Islamic Researches Institute website, states:

USA - *WIKIPEDIA ENCYCLOPEDIA*

On its www.wikipedia.com site, this Internet encyclopaedia, which contains a million or so articles and provides services in fifty languages, describes Harun Yahya and his works in these terms:

Harun Yahya is one of the leading figures in Turkish Creationism, and a fervent advocate for creationism in the creation versus evolution debate. He is considered the leading Muslim advocate of creationism.

UAE – *THE GULF TODAY*

The daily *The Gulf Today* reported that Harun Yahya was the best-selling author at Sharjah’s World Book Fair:

Harun Yahya became the most sought-after foreign writer at the recently-concluded World Book Fair at the Expo Centre, Sharjah. He has been writing on Islamic issues for the past two decades and has authored over 200 works... Explaining the need of introducing Yahya’s works in the UAE, Rashid Siddiqui of The Book Mall said the books strengthen people’s faith in the tenets of Islam. “Harun Yahya’s works can fairly be regarded as the opinion of Islam on various subjects. Be it Islamic teaching about terrorism or faith-related issues in nature, his works show the magnificence of Allah everywhere,” he said.

LETTERS

RUSSIA, Dr. Levin Zalman Isaakovic

HARUN YAHYA IS THE AUTHOR OF MANY BOOKS ADDRESSED TO A MASS READERSHIP (AND THAT IS NOT RESTRICTED TO MUSLIMS ALONE). IN THESE WORKS, HE SEEKS THE INTELLECTUAL DESTRUCTION OF THE FOUNDATIONS OF ALL ATHEISTIC IDEOLOGIES AND THOSE THAT DENY THE EXISTENCE OF GOD.

Harun Yahya is the author of many books addressed to a mass readership (and that is not restricted to Muslims alone). In these works, he seeks the intellectual destruction of the foundations of all atheistic ideologies and those that deny the existence of God. He is one of those Muslim intellectuals striving to reinforce the bases of faith in a world living under the domination of secularism and science. All of his books published in Russian, as well as those planned for publication, contain “scientifically proven facts” showing God’s miracles of creation.

Islam Denounces Terrorism comes from the same series. The author emphasizes that the Qur’an definitively prohibits the faithful from using any form of oppression or violence; that it brings with it peace, toleration, well-being, and justice; and that the Peoples of the Book – Muslim, Jew, and Orthodox – who sincerely desire peace also share common values.

In this context, his interpretation of “jihad” is especially significant. The word “jihad,” used in a general sense, means a holy war on the path of Islam, against unbelievers in particular. The author stresses that the “jihad” waged against atheistic doctrines is an intellectual struggle only, and that the greatest “jihad” is “a struggle against the evils inside people.” Physically, “jihad” refers to a war for the purposes of defense and for the strict application of moral and humane principles.

The phenomenon of terrorism is the result of terrorists, who deliberately distort this concept.

The book’s final chapter examines the origins of terror, which the author sees as lying in Darwinism and materialist ideologies. He proves the invalidity of Darwin’s theory, which maintains that life emerged as the result of chance and a constant struggle for survival. In his view, Darwinism depicts Malthus’ theory that racism and fascism are supposedly natural and legitimate ideologies. Yet at a time when terror and extremism are on the rise, when there is an attempt among almost the entire world community to equate extremism and terror with Islam, the publication of books of this kind deserves the greatest possible support.

WHEN I READ THE BOOKS WRITTEN BY BROTHER HARUN YAHYA, I HAVE THE FEELING THAT “ALHUMDULALLAH; MASHA-ALLAH THIS IS ANOTHER VERY GOOD WAY IN PRESENTING ISLAM.”

Dear My Brothers in Islam, Harun Yahya and staffs, I have read a few of your books representing the truth of Islam in the manner that I have rarely seen before by other authors.

As a Muslim, I have realized that Islam is based on Qur'an and Sunnah, is the true guidance of all mankind. Many scientific facts have been told in Qur'an for more than 1400 years. Without the appropriate methods and technologies, human had lacked of true understanding of several verses till recent scientific discovery. When I read the books written by brother Harun Yahya, I have the feeling that “AlhumdulAllah; Masha-Allah this is another very good way in presenting Islam.” In several of his books he telling these stories by highlighting the verses from Qur'an following by showing the scientific evidences with easily understanding diagrams or pictures. Qur'an is always the truth but scientific knowledge and methods that have been used at the time, might not be sensitive enough to answer and prove that verses from Qur'an. As we can see clearly that several verses in Qur'an such as about embryology, wave, mountains etc, they have just been proved by recent discovery with the improvement of scientific instruments mostly less than a hundred year. Reading these books has been a method for me, to help clarifying myself and reminding myself with the existence of God, Allah.

We have used some of these books in clarifying many issues and telling the truth about Islam to Muslim and non-Muslim. These books are also valuable to some Muslims students who study comperative religion in Thailand. They can use these books along with Qur'an to prove several point of discussion to non-Muslims.

As long as any works that has been done clearly for the sake of Allah base on Qur'an and authentic Sunnah, including these works, insha-Allah it will have great effect on us to understand Islam and ourselves. May Allah give you all with the rewards in this Dunya and Akirah for sincerely propagating the truth of Islam. May Allah guide us all.

I WOULD LIKE TO EXPRESS MY SINCERE GRATITUDE FOR ALL THE COMPOSITION AND CONTRIBUTION THAT YOU HAVE MADE TO PERFECT THE WORLD OF SCIENCE IN RELATION TO ISLAM.

To begin with, I would like to introduce my self as the founder and chairman of Al Azhar Syifa Budi Foundation. Maulwi Saelan. Our foundation has already been settling in educational field in Jakarta, Indonesia for over than 20 years with its main business accommodating children (3-19 years old) and their families under Islamic spirit of life.

Having envisioning the world today and its maturity, I would like to express my sincere gratitude for all the composition and contribution that you have made to perfect the world of science in relation to Islam. Your books have been tremendous facilitator to us in improving our school's educational spiritualization in our "Mumtaz School Program."

Thus, by having the opportunity working together with your team, I genuinely look forward to increasing cross-cultural educational quality between our nations. Last, please accept my warmest regards and thank you for your attention and support.

ALLOW ME ONCE AGAIN TO EXPRESS OUR PLEASURE TO BE ASSOCIATED WITH A GREAT NAME AND A UNIQUE AND MUCH NEEDED SCHOLARSHIP ON ISLAM AS HAS NEVER SEEN BEFORE.

It is a great pleasure for us to enclose herewith Edition 14th and 15th of our "Bulletin Al-Nidaa" and three pamphlets which contain articles by Brother Harun Yahya for your information. Please convey our heartfelt gratitude to Brother Harun Yahya and your Foundation for the kind permission to use his materials.

We printed the pamphlets specially for an interfaith dialogue which was held about a couple of months back and will use them for appropriate occasions in the future. We began including Brother Harun Yahya's writings in our Bulletin from the 14th Edition which was published two months ago. Our Bulletin is published bi-monthly.

Although the name Harun Yahya is generally known here in the reading and Internet circles, the exposure in our Bulletin widens his reputation while adding a breeze of fresh air into Islamic dakwah here, at least within our fraternity. We shall, inshaAllah, feature a few more of his articles in the coming editions so that the scientific aspect of Islam is more well known and received.

Allow me once again to express our pleasure to be associated with a great name and a unique and much needed scholarship on Islam as has never seen before.

YOU ARE WORKING FOR THE NOBLE GOAL OF BRINGING JEWS AND MUSLIMS TOGETHER. LET ME TELL YOU THAT IN MY OPINION YOU ARE DOING THE MOST IMPORTANT THING THAT CAN BE DONE AT THIS TIME.

You are working for the noble goal of bringing Jews and Muslims together. Let me tell you that in my opinion you are doing the most important thing that can be done at this time.

These two religions, Islam and Judaism, are religions of peace and love, and they have co-existed peacefully for many centuries. In the twentieth century, they both adopted political goals, as the Arabs and the Jews achieved political statehood in their ancient homelands in the Middle East. Unfortunately, since their establishments, the Arab states and Israel have been entangled in a tragic and bloody quarrel, with each side claiming that God is exclusively on its side, and each side being totally blind towards the aspirations, rights and sensitivities of the other side.

The time has arrived for intellectual leaders from both religious communities to meet each other in an atmosphere of peace and resolve the bitter Middle East conflict. They should proclaim that God wants His believers to love and respect each other and never to kill each other. I am glad that this initiative is coming from Turkey, the country which had once ruled the whole Middle East peacefully and tolerantly. I wish you much success.

It's honour for me to show our gratefulness to Science Research Foundation (SRF), all international Harun Yahya team members and especially to the honorary president, Mr. Adnan Oktar, for its contribution to education and science through books, documentary films, website and all that have been publicized in printed and electronic mass media. It have opened new understanding to Indonesian public about a simple and creative presentation method of the truth of creation. For myself, it was digested easily as well as communicated to others.

In this opportunity, I would like to thank for their presentation in seminar named “The Collapse of the Theory of Evolution and The Fact of Creation”, held in Wahana Bakti Pos Building, Bandung on 22 September 2003. Lectures accompanied by interactive movies, show slide, books digest, etc. were performed by SRF academicians.

These presentations have made increment curiosity amongs attendance. This could be encouragement for better educated Indonesian people in the next generations.

ISRAEL, TEL AVIV UNIVERSITY

I have the honour to express my vigorous support to your noble effort to stop the so-called "religious" terrorism and endorse the true religious values common to the three monotheistic faiths. I greatly appreciate your stand and have no doubt that the upcoming conference will greatly contribute to mutual understanding between the peoples of our region and throughout the world.

I strongly believe that the recognition of our common religious and moral values is the true way to achieve and secure lasting peace among believers in One God. Accordingly, I believe that the first, and most important, step in this direction is to denounce any bloodshed

in the name of God as a perversion of these values. That is why I attach a paramount importance to your initiative and share your hope for success. God bless you!

SAN FRANCISCO ANNUAL ISLAMIC CONGRESS

The “Annual Islamic Congress,” convened by the As Sabeel Masjid Noor Al Islam at the Nob Hill Center in San Francisco on 26-28 December 2003, was attended by well-known figures from the Islamic world and academics. Their presentations, based on Harun Yahya’s works, focused on “The Miracles of the Qur’an” and “The Qur’an Leads the Way to Science.” The conference, which displayed translations of some of Harun Yahya’s books, attracted considerable interest. The messages sent to www.harunyahya.com afterward clearly indicated the books’ great impact. One of these messages reads:

I listened to two of your speakers in the San Francisco Islam Congress and when returned home examined your site. I am amazed and impressed by all this in-depth research, Alhamdulillah. I feel more confident about my faith. I thank you for all these perfect studies. I will share this new knowledge with my friends and family. Karoline.

A documentary based on Harun Yahya’s works was also shown at the conference, and translations of his books were displayed.

As Sabeel Foundation held a three-day series of conferences in early 2005. Speakers gave their presentations on “The Qur’an Leads the Way to Science,” “The Disasters Darwinism Brought to Humanity,” and “The Miracles of the Qur’an.” Addresses about the author and his works were given before these presentations, and multivisual displays were shown. After the San Francisco conference, a special interview was held with Harun Yahya’s representatives to be broadcast at a later date on the private MRT Roundtable TV station.

CONFERENCE SERIES, NOVEMBER 2003

Conferences based on Harun Yahya’s books were held during November 2003 at several American universities, educational institutions, high schools, and other bodies. During this nineteen-day series of conferences, seventeen separate presentations were held at six universities and other institutions. The speakers, who also participated in a number of television programs, were the subject of enormous interest wherever they went.

THE ANNUAL INTELLIGENT DESIGN CONFERENCE UNIVERSITY OF MINNESOTA

Representatives of Harun Yahya spoke on “The Collapse of Darwinism” at the Intelligent Design Network’s “Annual Intelligent Design Conference” held at Minnesota University. All of his works on Darwinism attracted great interest.

A series of conferences held at Andrews University and the Loma Linda University’s Faculty of Theology concentrated on “the kind of union that Christians and Muslims must establish against atheism and terror.” Multivision presentations introducing Harun Yahya’s works were the subject of great interest. In addition to these conferences, presentations were also held at MESA and Irvine Universities on “The Collapse of the Theory of Evolution,” “The Signs of the Last Day,” and “The Fact of Creation.” Poster exhibitions and slide shows attracted considerable interest, as did the conferences themselves.

IDN, a wide-ranging scientific organization, describes the scientific proofs of Allah’s existence and the invalidity of the theory of evolution. It is particularly active in America and has been influential in teaching the fact of creation alongside the theory of evolution in science classes.

CONFERENCE SERIES, SEPTEMBER 2002

Several conferences were held during 2002. The main theme of these events, which took place in the wake of 9/11, was "Islam Denounces Terrorism." In addition, presentations on "The Collapse of the Theory of Evolution and the Fact of Creation," "The Miracles of the Qur'an," and "The Existence of God" were also given at Columbia University, Purdue University, New York Hunter College, The Central Islamic Center of New York, Upper Westchester Muslim Society, The Cloyd Heck Marvin Center, Virginia Nova College, The Illinois Muslim Education Center, the Illinois Muslim Society, and elsewhere.

THE AMERICAN MUSLIM CULTURAL FESTIVAL SALT LAKE CITY

The American Muslim Cultural festival, held at Gallivan Center in Salt Lake City during September 2003, was attended by many Christian representatives. Translations of Harun Yahya's works were on display at the festival, which newspapers described as one of the most important signs that members of the two great faiths could co-exist in peace.

Desert News, 6 September 2003

Various reports about the American Muslim Cultural Festival appeared in the Salt Lake City press.

INTELLIGENT DESIGN SEMINAR, KANSAS

Before the 2001 Intelligent Design Network seminar held in Kansas, which was attended by several important scientists and researchers, a presentation on Harun Yahya's works dealing with "The Collapse of the Theory of Evolution" was given. Based on "the need for Christians and Muslims to combat Darwinism together," a major topic of his works, it attracted great interest from Christian academics. Detailed questions about his works were asked, and the participants later expressed how impressed they were by these works.

HUNGARIAN CONFERENCES, 2004

Thanks to the various conferences held in 2004, the Hungarian public was able to become acquainted with Harun Yahya’s works. Translations of his books were presented during conferences held in schools, Islamic centers, and other organizations, as well as through multi-visual presentations and exhibitions. These presentations, which attracted the interest of Muslims and the Hungarian public, dealt with “The Collapse of the Theory of Evolution and the Fact of Creation,” “The Miracle Planet,” and similar matters. Some of these multi-visual presentations had Hungarian subtitles; others were dubbed. Hungarian-language versions of “The Miracle of Man’s Creation” and “Islam: The Light Illuminating the World” also attracted great interest.

On 28 July 2004, the Hungarian-language version of “The Miracle of Human Creation” was screened at the I. Kerületi Budavari MuvelodesiHáz, Bem rkp.6 cultural center in Budapest. In the wake of this film, which was watched with considerable interest, an address entitled “Let Us Work Together” was given to members of various Christian denominations. The participants, who listened with great interest and enjoyment, afterwards expressed their pleasure with the conferences and requested that more be arranged.

MILLENNIUM ASSOCIATION MACEDONIA

Senat Brvraynko Bekiri, president of the Macedonian Millennium Association, has used Harun Yahya's works for the past four years to inform the Macedonian public of the fact of creation. He summarizes his activities in a letter:

Ever since becoming acquainted with the works of Harun Yahya, our organisation has begun showing the VCDs prepared by you, based on those works, which are aimed at children and young people. Our organisation has been arranging educational programmes for children and youngster for four years. Children and young people from various nationalities participate in these programmes. As well as Muslim Turks, and Albanian and Greek groups, Orthodox Macedonian children and youngster also take part. We have been organising visual classes within the scope of our own programme for the last two years. This programme only takes place through the VCDs prepared by you. To date some 600 students have attended our centre and visual classes. This programme, which we refer to as visual classes, lasts for four months and takes place only at weekends. After it had begun, parents and the public began exhibiting great interest in our activities. Demand for us to continue with these activities and reproduce VCDs has been increasing.

RUSSIA AND THE CENTRAL ASIAN REPUBLICS

RUSSIAN INTERNATIONAL FAITH FAIR - 2003

Between 22 May - 1 June 2003, an International Faith Fair was held at Moscow's VDNH Fair Complex. This event, the third such one, was supported by the mayor of Moscow, Russian Patriarch Alexei II, Ravil Gaynuttin (head of the Russian Muftis' Association), and leading figures from the Protestant Church and the Russian Jewish Congregations Congress. More than 15,000 people visited the ten-day fair.

The Islamic Day began with a Russian-language screening of "Islam: The Light Illuminating the World," based on Harun Yahya's work. Sheikh Gaynuttin opened the event with a speech emphasizing the pride and enthusiasm that Russia's Muslims drew from Harun Yahya's valuable works and asked that more of them be published.

The Evolution Deceit, which has been translated into more than twenty languages, is used as the major reference book by Orthodox, Christian, and Muslim creationist forums in Russia.

The president of the Russian High Islamic University said that they were preparing to include all Russian-language versions of Harun Yahya's books and documentaries at the university and in the training curriculum of the country's seminaries.

A series of conferences was held in Indonesia between 17 September - 2 October 2002.

The conference held at Muhammadiyah Solo University dealt with "The Disasters Darwinism Brought to Humanity." The conference at the Surakarta State University Student Center, attended by 1,500 people, considered "The End of Darwinism."

Conferences also took place at Indonesia University, the Jakarta Conference Center, the Wahana Bakti Pos Indonesia Hall, Sultan Agung Islamic University, Diponegoro University, Brawijaya University, Andalas University, the Lampung University's Bandung Islamic Center, and other educational establishments. Lasting for fifteen days, the conferences attracted over 30,000 people.

A conference held in Palembang featured "The Disasters Darwinism Brought to Humanity." The address, based on Harun Yahya's book of the same name, was received with enormous interest by the audience.

LAMPUNG UNIVERSITY

The 2,000 or so people who attended the conference, held in the Lampung University Sports Hall, showed great interest in Harun Yahya and his works. A multivisual show on "The Collapse of Darwinism" revealed how science has defeated Darwinism.

GADJAH MADA UNIVERSITY

A seminar on “The Collapse of Darwinism in the Light of Scientific Advances” was held in the Gadjah Mada University Pamungkas Hall. The seminar, which attracted wide student interest, concluded with a question and answer session.

ANDALAS UNIVERSITY

Two separate conferences were held on one day in the Andalas University Governor’s Hall in Padang. Students showed considerable interest in “The End of Darwinism” and “The Disasters Darwinism Brought to Humanity” presentations. The first conference attracted 1,200 participants; the second one attracted 1,500 people. Some 400 people had to stand because there were not enough chairs.

THE ANGREEK HALL, SENEYANG

A presentation based on various works by Harun Yahya was given in Seneyang (near Jakarta) on 27 September 2003. Called “The Collapse of the Theory of Evolution and the Fact of Creation,” this event attracted considerable interest among the Indonesian public.

SEMARANG CONFERENCES

A conference directed by Rector Dr. H. M. Rofiq Anwar, held at Sultan Agung Islamic University, attracted more than 100 members of the academic staff. Following the conference, Anwar spoke in support of Harun Yahya’s efforts to spread Qur’anic moral values across the world.

Another conference was held on the same day at Diponegoro University, whose rector addressed over 1,000 attending medical faculty students. Organized by the Muslim Union and the faculties of medicine and economics, it attracted considerable interest.

THE JAKARTA BOOK FAIR

Speeches were made during a press conference at the book fair held in the Jakarta Exhibition Hall to introduce Indonesian-language translations of Harun Yahya’s books.

Most of the attendees were representatives of major Indonesian magazines and newspapers. The addresses were followed by a thirty-minute question and answer session.

OTHER PRESENTATIONS

Many Indonesian academics who take a close interest in Harun Yahya’s works discuss their themes at their own conferences, which include multi-visual presentations, at various universities and educational institutions. These conferences include:

A presentation on “The Urgent Need to Install Science and Islamic Moral Values in Society” was held on 21 September 2003, at Bogor Agricultural University. The four speakers based their presentations on Harun Yahya’s works.

A poster exhibition on Harun Yahya's works was held at Bogor Agricultural University in 2001.

These conferences were arranged by academics who have spent years studying Harun Yahya's works and who are experts in these subjects.

GADJAH MADA UNIVERSITY

A conference regarding strengthening the future generations' faith through the works of Harun Yahya was held at Gadjah Mada University, Yogyakarta, on 26 December 2004. Arranged by the Salman Al Farisi Foundation, educators concentrated on how to explain scientific subjects and how to help students see the proofs of Allah's existence through Harun Yahya's works, and their role in replacing atheism with faith.

Teachers from primary schools across Indonesia attended the conference.

INDONESIAN CONFERENCE SERIES

MARCH 2003

"The Fact of Creation" series of conferences, held in Turkey and abroad, took place in Indonesia during 8-19 March 2003. As always, they attracted great interest from the public.

The goal of Harun Yahya's works is to spread the Qur'an's message to the world so that people will think about Allah's existence and oneness and other articles of faith. For that reason, enabling people to read such valuable works is a major service. The second item in the Indonesian conference series, which attracted great interest and was highly successful, made a significant contribution to this goal.

The conference held on 8 March at Jakarta's Sukharno Palace National Stadium on "The Miracle of Human Creation" attracted enormous public interest. The related multivisual show was also very popular.

A conference based on *Perished Nations* was held on 9 March at the Cilegon Islamic Center in Serang Banten.

A presentation based on Harun Yahya's works given at Jakarta's Al-Azhar College on 10 March.

A large number of teachers attended the meeting. School officials listened to ideas about the program they had set up to include Harun Yahya's works in the curriculum and stated that their aim was to base the entire curriculum on his works.

The subject of a press conference held at Jakarta's Sari-Pan Pacific Hotel on 10 March was "The Errors of the Theory of Evolution." A presentation introducing Harun Yahya and his works was also made. Two more conferences were held on that same day: "The Dark Face of Darwinism" and "Scientists' Responsibility of Communicating the Fact of Creation." The president of the Indonesian Board of Science attended as a member of the audience.

A presentation on "Evolution from the Scientific Perspective and Its Influence on the World" was held at Jakarta's Soekarno Palace National Stadium on 11 March.

Radyo Dakta, a local radio station, carried a program on 11 March on Harun Yahya's works and their global impact.

A presentation on "The Fact of Creation Demolishes Darwinism" was given in the Economics Faculty Auditorium at Indonesia University, one of Jakarta's most prestigious universities. Students who spoke during the ensuing question and answer session praised the author and his works.

A conference on the errors of the theory of evolution, aimed mainly at high school teachers, was held at the Jakarta National Library on 13 March. The chairman of the Education Commission, who attended the conference, gave an opening address describing Harun Yahya's works.

A presentation on "Birth and Creation" was given on 16 March at Jakarta's Buana Putra Pertamina Cinema Hall. One group of young people who spoke after the conference, which attracted 600 people, proclaimed that "these works inspire a whole new enthusiasm and awareness."

A two-part television program introducing Harun Yahya's life and works was broadcast by Jakarta A, Indonesia's most-watched television station, on 19 March. The program described the global impact of his works and concentrated on those books that have been translated into Indonesian.

A major conference organized by the Research and Information Centre on Islam (RICOI) and the Great Istanbul Sdn Bhd on “Evolution Deceit, the Fact of Creation, and Miracles of the Qur’an” was held in Kuala Lumpur on 30 September 2001. Several Malay-language presentations inspired by Harun Yahya’s works were presented.

THE KEFAHAMAN ISLAMIC EDUCATION CENTER MALAYSIA -OCTOBER
2003

Seminars arranged by the Quds Education Foundation to deal with “Science Upholds Faith” were held at this center during 3-6 November. The main topics were “The Chain of Miracles,” “The Miracle of Human Creation,” “Biomimetics: Technology Imitates Nature,” “The Truth of the Life of This World,” “Timelessness and the Reality of Fate,” “The End of Materialism,” “Effective Methods of Communicating Islam,” and “The Qur’an Leads the Way to Science.”

The Malaysian Minister of Women’s and Family Affairs attended the event’s opening. The minister watched the introductory film and gave a short address, thanking the speakers on the author’s behalf. After the conference, the minister was presented with Malay-language versions of Harun Yahya’s books published by Saba Media.

MALAYSIAN CONFERENCES SERIES
APRIL 2004

Conferences based on Harun Yahya’s works and directed toward Muslims living in Malaysia were held during April 2004. These twenty-five or so conferences were followed with great interest.

Cyberjaya TV, one of Malaysia’s most important television stations, carried a live broadcast introducing Harun Yahya’s works. This program, watched simultaneously in sixty countries, was repeated twice more during the course of the day.

International seminars were held at Kuala Lumpur’s Putra World Trade Center on 26 May. Titled “The Qur’an and the Universe” and “The Human Body – The Universe Itself,” these events attracted great interest.

Two conferences, “The Science of the Qur’an in the Age of Universalisation” and “Irreducible Complexity – The Human Ear,” were held at Dewan Menteri Besar Kuantan on 28 May. These events attracted wide audiences, among whom were the deputy governor of Pahang province, senior military officials, and politicians.

The Persatuan Perubatan Islamic Malaysian Science Conference was held on 30 May at Penang’s Bayview Beach Resort. Addresses on “The Collapse of Darwinism” and “Harun Yahya’s Intellectual Struggle” were given. Scientists comprised a large part of the participants.

(Left) The fair director, Haji Hasan Hamzah, praised the works of Harun Yahya. The report shows Education Minister Dato' Hishamuddin Tun Hussein examining these books.

Presentations on “The Collapse of Darwinism” and “Harun Yahya’s Intellectual Struggle” were given at Yayasan Retsu and Shah Alam on 1 June. The audience listened to the author’s life with particular interest and, following the presentations, asked many questions.

MALAYSIAN INTERNATIONAL BOOK FAIR - 2004

Documentaries and works by Harun Yahya were exhibited at a Malaysian book fair held during May 2004. The works displayed received considerable attention from visitors.

"SIGNS OF THE CREATOR" SEMINAR

MALAYSIA, OCTOBER 2002

Anational “Signs of the Creator” seminar was held by Saba Islamic Media, the Malaysian publisher of Harun Yahya’s books, on 4 October 2002. A display stand was set up prior to the seminar.

Saba Islamic Media initiated a campaign during 2002 to provide 1 million people with Harun Yahya’s works within one year. It also organized, along with Think Plus Counseling, conferences and seminars that emphasized the importance of Harun Yahya’s works. These events were held in Kuala Lumpur, Malacca, Kuantan, Kuala Terengganu, Kota Baru, Penang, Kuching, Kota Kinabalu, and Johor Baru.

This brochure, which introduces Saba Media's campaign, contains a section devoted to Harun Yahya and his works. The conference sought to give the Malaysian public a better idea about the author and his works.

Saba Media's newspaper advertisements and brochures introduced “The Miracles of the Qur’an,” “The Secret behind Matter,” “The Creation of the Universe,” “The Fact of

Creation,” “The Collapse of the Theory of Evolution,” and “The Miracle in the Cell.” These attracted wide interest all over Malaysia.

The Malay Mail, 5 September 2002

Among the speakers were Professor Muhammed al Mahdi from New York University, Islamic Civil Society Organisations Coordination Committee Chairman Dr. Amir Farid Ishak, and Dr. Hishamuddin Alham from the Malaysian Technological University Engineering Faculty.

New Strait Times

AUSTRALIAN CONFERENCE 2005

Several conferences were held in Sydney and Melbourne during the final days of 2004. The presentations made by Harun Yahya's representatives on “The Existence of God: Scientific and Spiritual Proofs of God's Existence,” held between 26 December 2004 - 2 January 2005, attracted considerable public interest.

The conference held at the Sydney Opera House on 26 December 2004, attended by 1,500 people, began under the direction of the chairman of the Christian Churches Union. Nurettin Okumus, the muezzin of Ankara's Kocatepe Mosque, recited Qur'anic verses. A 3-D animated film on “The Complexity of the Cell” was then shown. Following the screening, an address was given on “The Scientific and Spiritual Proofs of God's Existence.” Other speakers at the conference were Tariq Ramadan and Noorudeen Durkee.

A presentation on “The Miracles of the Qur'an” was given on 31 December 2004 at the Wollongong Mosque.

A presentation on “The Qur’an, the Sunnah and Reflection - The Miracle of the Qur’an” was given at Liverpool’s Whitlam Sports Centre. A stand was set up at the centre’s entrance to display Harun Yahya’s works.

Presentations on “The Scientific and Spiritual Proofs of God’s Existence” and “Allah Is Known through Reason” were made at Melbourne’s Hamer Hall. Officials stated that this was the first time an address on Islam had been given at the hall. Before the conference, an interview introducing Harun Yahya’s works was held with ZZZ Turkish Radio.

Various translated versions of Harun Yahya books and documentaries, in VCD and DVD formats, were exhibited at a stand near Hamer Hall’s entrance.

Two further presentations were given within the scope of the Australian conferences, one at the Sydney Community Hall and the other at the Sunnybrook Hotel. Among the presentations given were “Signs of the End Times” and “The Miracles of the Qur’an.”

"The Miracle in the Ant"

One article published in the magazine on *The Creation of the Universe* contained the following words:

"The sincere, plain and fluent style employed by the author ensures that everyone of every age and from every social group can easily understand this book.

The author also assigned a special chapter to the collapse of the theory of evolution, because, according to him, this theory constitutes the basis of all anti-spiritual philosophies,

therefore, showing that this theory is a deception is a very important duty, which is related to the religion.”

This magazine has published "Communication in the Cell," "The Miracle in Hormones," "The Miracle in the Defense System," "DNA: The Data Bank of Life," "Atoms That Come to Life," "Birds: Flawless Flying Machines," "The Information in Living Things and the Collapse of Materialism," "The Miracle in the Atmosphere," and many of his other articles.

One of Harun Yahya's articles in this magazine is called "Bacterial Resistance to Antibiotics." The article in question looks at evolutionist errors on the subject:

"Finally, there is no example of mutation that 'develops the genetic information.' Evolutionists, who want to present antibiotic resistance as evidence for evolution, treat the issue in a very superficial way and are thus mistaken. ... In this case, it cannot be claimed that the immunity mechanisms in bacteria and insects constitute evidence for the theory of evolution."

SAUDI ARABIA - AL-DAAWAH

This monthly journal, which is distributed in North America, the Middle East, and Europe, has featured dozens of Harun Yahya's articles. It has carried interviews with Harun Yahya as well as his scientific, faith-related, and political articles.

In an interview titled "Importance of the Internet in Calling to Allah," Harun Yahya stated that the Internet is a means by which people can come to know true Islamic moral values:

Today, there is an ever-growing interest in Islam in Western countries. Communicating the morality of Islam to everyone in an accurate, comprehensible and purposeful style is the way to enhance this interest and to make these people become familiar with the true Islam.... I believe that Internet technology must be more efficiently employed for the purpose of spreading Islamic morality.

"A Muslim call to the Israelis" (January 2003),
"The Lessons from Death" (May 2003), and
"Allah created the Universe from Nothing" (September 2003)

Harun Yahya's political articles are intended to broaden the reader's horizons and demonstrate the perfection of Allah's creative artistry.

In an article in the September 2004 issue, "Miracles in the Eye," Harun Yahya wrote:

September 2004

November 2003,
"Social Peace at the Time of the Prophet"

In an eleven-page article entitled "Why Is France So Afraid of Religion?" published in March 2004, Harun Yahya examines how certain French forces have always acted together against religion and the chaos they have inflicted on the country. One part of the article says:

"Today Enlightenment influenced literature praises the French Revolution; however, the Revolution cost France much and contributed to social conflicts that were to last into the twenty-first century."

Harun Yahya's interview on "Importance of the Internet in Calling to Allah," published in *Al-Daawah* in August 2001

Consider the description of “coincidence” suggested by the evolutionists:

How come the eyes are coincidentally formed in a living being that previously did not have an eye? Could the two eye-sockets appropriate to fit the eye be formed in the skull coincidentally? Could two light-transferring spheres full of liquid be formed in those eye sockets “coincidentally”? Could these two lenses that provide the fraction of light and focus the light at the back wall of the eye be formed coincidentally?

Could the eye muscles that provide the movements of the eyes be formed on their own? Could the retina layer that would perceive the light at the back wall of the eye be coincidentally formed? Could the nerves that would connect the eyes to the brain be formed all of a sudden on their own?

And after all these, could the tear glands that prevent dryness of the eyes be formed by coincidences? And could the two eyelids and the eyelashes that protect the eyes from dust and similar foreign materials be formed coincidentally?

The common answer to all these questions is absolutely: “No!” Even Darwin himself confessed this reality.

AZERBAIJAN - PALITRA

The newspaper *Palitra* has regularly carried Harun Yahya's articles since 2002. In its 18-19 September 2002 issue, it devoted an entire page to an interview with him: "A Devoted Life to Islam." This described his devotion to religion ever since his childhood and the books he has written.

Some extracts from this interview read as follows:

Ever since childhood I have thought that the existence of Allah, the moral virtues revealed in the Qur'an and the Hereafter need to be explained to people. For that reason I learned about the history of Islam and the life and Sunnah of our Prophet (saas), carefully studied the valuable works of great Islamic scholars, and began telling people what I knew.

Like everything that befalls us, prison life is a test created by Allah, and is a pleasure and a delight.

It is impossible for anyone to harm anyone else outside Allah's control. It is therefore Allah Who puts one in prison, and Allah who frees one.

I believe telling people that Darwinism is a grave deception is a duty incumbent upon every Muslim.

My intellectual struggle against Darwinism is made possible by the will and inspiration of Allah. That is why I think that the first stage in the eradication of atheism from the world and its replacement with the moral virtues of the Qur'an must be the elimination of the intellectual basis of atheism. Allah showed me this, inspired it in me... This intellectual struggle that has been going on for some 20 years has allowed us to obtain the most excellent results... With the collapse of these heretical ideologies, people have begun turning to Allah and the true faith. This is a major historic development.

It is very important for believers to unite if evil and those who commit evil are to be intellectually eliminated and for the alliance of the wicked to be shattered. It must not be forgotten that Almighty Allah is the greatest helper and supporter of those who struggle to

disseminate the moral virtues of Islam. Muslims will be rewarded for these efforts by being raised in the sight of Allah. Allah bestows a delightful, peaceful and easy life in this world on the righteous.

"Kosovo-Serbia-Macedonia triangle"

In the August 2000 issue, it carried "Common Material, Design, and Designer" which discussed the latest developments in the Human Genome Project. The following important extracts are taken from that article:

The recent completion of the human gene map within the scope of the Human Genome Project is an important scientific improvement. However, some results of this project are being distorted in some evolutionist publications. It is claimed that the genes of chimpanzees are 98% similar to human genes, and this is presented as an evidence for the claim that apes are close to humans, and therefore, logical ancestors of humans as claimed by Darwin's theory of evolution. The argument is misleading.

The claim of 98% similarity is deceptive. To claim that the genetic make-ups of man and chimpanzee bear 98% similarity to each other, the genome of the chimpanzee also has to be mapped just as that of man and the two have to be compared. No such result for the chimpanzee has been done yet.

Glas Islama (The World of Islam), a monthly political journal, published a series of Harun Yahya's articles on "Communism in Ambush" over four months during 2002. Part of this series reads as follows:

Communism has stamped its mark on the 20th century—a mark of aggression and cruelty, bloodshed and tears. Historians have estimated that its ideology has caused the death of 120 million people since the Russian Revolution of 1917. These casualties include not only soldiers killed on battlefields, but citizens murdered by their own governments. The whole world has seen the pitiless slaughter carried out by Communist leaders. One hundred million men and women, from the elderly to young people and infants, lost their lives to this cold, hard, savage ideology. Communist regimes have deprived tens of millions of their most basic rights and freedoms, ejecting people from their homes and systematically subjecting them to famines, slavery in labor camps and imprisonment. Millions have been the targets of Communist guerilla groups and terrorist organizations, and still others have lived in the fear of becoming targets for their bullets.

What are this ideology's roots? Where was Communism born? How did such a cruel, bloodthirsty worldview find adherents and supporters throughout the world? Why did it come to power and flourish, dragging millions in its wake? How did it come to an end, with the collapse of the Soviet Union? Or has it really ended, or does it still threaten every country on earth?

This article answers these questions, and draws our attention to a most important one: Does this serious threat still exist in the world? Regrettably, yes. Communism is waiting in ambush!

HARUN YAHYA

DOCUMENTARIES AND AUDIO CASSETTES

Some 150 documentaries based on Harun Yahya's works have been produced in many languages. Aired on national and local stations in Pakistan, Indonesia, Azerbaijan, USA, Nigeria, the United Arab Emirates, Holland, Canada, New Zealand, and elsewhere, they have attracted considerable worldwide interest, as can be seen from the many messages their viewers send. They frequently ask that the documentaries be rebroadcast and/or shown at more convenient times. On some channels, these documentaries may be broadcast at news times and several times a day.

So far, these documentaries have been shown on approximately 100 channels worldwide. They are still being broadcast. Their main subject matter is as follows:

- The lives of animals created by Allah as proofs in nature and technological advances made based on these creatures;
- Warped ideologies that have inflicted terrible losses on humanity and how they can be avoided;
- How Darwin's theory of evolution, which evolutionists have attempted to portray as a scientific theory ever since the nineteenth century, is a deception and has led humanity to dreadful catastrophes;
- Creation series in which children and young people take a great interest;
- Philosophy-based documentaries that raise the viewer's general level of culture;
- The miracle of human creation;
- Explanations of how the terror and unhappiness in the world can be resolved only by adhering to Qur'anic moral values;
- And documentaries about the End Times and proper moral values...

Viewers can also watch these programs free of charge on many websites. Public screenings are also held from time to time at universities, cinemas, and conference and meeting rooms, thereby allowing thousands of people to benefit from them. Some of the thousands of messages received from viewers demonstrating the impact of these documentaries are as follows:

Assalamu Alaikum! Jazakal-Lahu Khairan for all your works for Islam. May Allah reward all of you in abundance. I am blind and I have gained so much benefit from your audio and your video downloads. Recently, I have been trying to download your div files.

Muhammad Islah, Thailand

Thanks to Mr. Harun Yahya. Your books and videos truly helped shape the person who I am today. This world needs more people like Harun Yahya who spreads the truth in this dunya and helps young minds to understand the creation of man, our creator Allah (swt).

Muhammad Khalid Yusuf, United Kingdom

Thank you! I have read nearly all your books, watched the videos and go on your website constantly. Being a British born Muslim I was taught Islam through culture. I thank you for increasing my knowledge and bring me closer to Allah. I am organising to show the videos to fellow medics, especially in regards to evolution. Everything has been explained scientifically and logically and I am emailing your website even to non-Muslim friends. May Allah help you spread your works. Thank you once again for increasing my knowledge.

Saima Sharif, England

I am always interested in such documentaries which are easy to understand rather than the confusing lectures by many "wise" people. I saw Mr. Harun's work on the Cable TV channel called Indus and it was amazing. It was duned in Urdu and had awesome videos, moreover every bit in the program was so easy to understand and practical at the same time. I really praise the efforts of the author. Allah bless him. ..

Salman Ali Khan, Pakistan

Harun Yahya gave me the most wonderful and comprehensive view of this complex world! His books, audio and video's are accurate, up-to-date, really enjoyable to read/watch, the English is quite accessible, illustrations are excellent, a truly great achievement!

Ivana Buchra, Serbo-Croatia

I find this site great!!! I have downloaded many videos from here and the greatest thing about this is that all the things available for download are free! May ALLAH bless all the contributors of this site. I find good info here!!!

Zuburqan Khan, India

After visiting your Webpages, I've learnt lots of knowledge about Islam and watch lots of videos and flashes which are extremely wonderful and meaningful. I hope you can keep on your contribution to the Muslims.

Wasal Khan, Hong Kong

... He [Harun Yahya] has done wonderful work for the whole human kind. And may Allah give him more wisdom to help others with facts and truth of Islam, the true religion. InshaAllah we are hopeful to learn more about Islam in the best possible way. And especially thanks for him, that he knows the best way to reach people, that is by video documentaries

and facts. I am a normal person with great enthusiasm for Islam... May Allah help us to gain knowledge for us, for our countries and for the whole mankind. Ameen.

Service TV (Los Angeles), TCTV (Torrance Cable TV - California), Arab American TV Chicago, Cox TV (California), Zindabad TV, and Channel 77.

Australia

Australia has shown a particular interest in Harun Yahya's documentaries. Channel 31, sponsored by the Australian Islamic College, is one of several stations that broadcast them regularly. In addition, ABC (the Australian Broadcasting Corporation) broadcasts them on its "Nighthlife" program.

Canada

Harun Yahya documentaries are broadcast in Canada by Vision of Islam TV (Pakistan TV Network), Canada National Learning Center, and Jafry Communications.

Nigeria

There is enormous interest in the Harun Yahya documentaries in Nigeria, as can be seen from the large number of messages reaching the website. These documentaries, broadcast by Edo Broadcasting Service with various channels affiliated to the TV Authority, National TV, and Radio Télévision Ténéré, help many people grow in faith.

South Africa

Harun Yahya documentaries are broadcast on ITV, the country's first English-language Islamic channel. ITV is on air 24 hours a day and attracts around 4 million viewers in some twenty African countries. It regularly screens English-language versions of these documentaries. Channel Africa also shows them in South Africa.

Tanzania

Zanzibar Cable TV regularly airs Harun Yahya documentaries.

New Zealand

Harun Yahya documentaries are regularly broadcast by the local Shine Television channel.

Sri Lanka

Some Messages Received regarding the Documentaries

I'm very impressed with your books & CDs , my students are of different ages (middle & high school). They were overwhelmed with such great work. May Allah bless you, I'm in contact with some distributors of the books in Dubai and I hope I can get all the works to be of great use by the students in my school. I hope to have the chance that you come and speak to my students.

Laila Diaa, UAE

Sir, you are doing vey well (jazakAllah). Your CDs are very much useful to explain our religion, by using all these recourses I am able to explain ISLAM to my non-Moslem friend. Thank you, may ALLAH be pleased with you (jazakAllah).

Javed Ahmad, India

Your CD on the Miracle of Cell is likely the final work on the Cell perhaps. It influenced my students much.

Samiuddin, Pakistan

Allah may shower all of His blessing upon Brother Haroon and his team. 1st time I have seen this website after watching brother Harron's CD "Miracle of Quran". It was excellent. I am very much keen to read this great man's all publishing in future insha ALLAH.

Mohamed Razeen, Sri Lanka

Brother your website is wonderful, what I liked the most is your films as they are more effective then books & have a long lasting effect. Thank you brother for free downloading of books, movies and all, your site will really help many to strengthen their Faith in today's evil generation. Brother please try to make in all possible languages so that people who don't know English will [benefit], especially the uneducated ones. May ALLAH give you more strength to unite Muslims. May ALLAH give you big big big reward. Jazak Allah Khair.

Shifa Shaikh, India

Over and over again I read and watch the VCDs of Harun Yahya, and I always get the new spirit of Allah. Well I think everyone who ever saw its video and also read books of Harun Yahya, has the same feeling. And see what you got after that, we all will love Allah more and more. Harun Yahya and team, with all you have done, just believe, you'll get a big-big blessing from Allah. With all your heart, you'll feel it.

Dian Susmarini, Indonesia

SubhanAllah! You have made REMARKABLE WORKS! I have watched your VCDs. It makes me more understand this life. Your work is truly an inspiration to all human being to accept the truth Allah has given to us. Since I was a child, my mom has been teaching me about the existence of Allah, how He creates and cares everything in this world and beyond. Watching your VCDs reminded me my mom's simple explanations. But of course you gave it more and more details with GREAT and EXTRAORDINARY explanation in scientific ways. I was so happy when I showed her your VCD series. Thank you so much, you have strengthened our Imaan to Allah SWT. Hope you will produce many more books, videos, especially for children, because it's better to show the truth of Allah since they are kids (like what my mother did to me, although she had just been a Moslem when I was a baby). I want to know more about Mr. Adnan Oktar and his family. Reading his works also makes me interested to study Turkish Language because I imagine that someday I'll meet you.

Indah Pristiawati, Indonesia

I 've read and collected Harun Yahya books and VCDs. Sometimes I buy more than one book and give to friends so they will also have more understanding about this life. Thank you Mr. Harun. I love Allah, I love all Moslems and I love you. May Allah reward you for all your REMARKABLE WORKS!

Indah Prist, Indonesia

I have several VCDs of Harun Yahya production, I'm very happy & surprised with the content of this. I support You to produce other products.

Winarto Rachmat, Indonesia

I was so fascinated about some of your works e.g. DEEP THINKING, ALTRUISM IN NATURE just to mention a few. The truth is that all the western world documentaries we've been buying are not as rich detailed and well researched as yours. The only thing I can say now is to pray to Almighty Allah to grant you more wisdom and to grant you Aljannat Fridous.

Yusuf Abdulmajid, Nigeria

All of your DVDs are fantastic. Thank you and Thanks God .. we have Harun Yahya...

German-language Documentaries

This set, consisting of 10 CDs (each containing two documentaries) features, among others, "Islam Denounces Terrorism," "Technology in Nature," "The Creation of Man," "The Collapse of Atheism," "The Collapse of Materialism," "The Truth of the Life of This World," "Solution: The Values of the Qur'an," and "The Dark Face of Darwinism." Documentaries

are regularly broadcast in both German and Turkish on Germany's TV stations, such as TD1 and Nur TV.

These documentaries, also watched by large numbers of people in Austria and other German-speaking countries, are used as resource material by some teachers, and attract wide student attention. Many students who watch public screenings of them visit the websites to obtain more detailed information about Harun Yahya's works.

Sometimes, volunteers distribute these documentaries. For example, one Turkish citizen living in Germany reports that he distributes, free of charge, German-language documentaries to Turks living in his city after Friday prayers. Having reached 10,000 families, he states that many viewers have subsequently turned to faith.

Bosnian-language Documentaries

Some of the documentaries in this 10 CD Bosnian-language set are "The Dark Face of Darwinism," "The Harmony in the Universe," "The Collapse of the Theory of Evolution," "Miracles of the Qur'an" and "New Age: A Superstitious Religion of Modern Times."

Just like the author's books, these documentaries attract considerable interest. In fact, they were broadcast regularly throughout 2004 Ramadan on such popular Bosnian TV stations as NTV and Sancak TV. TV Srbac also broadcasts Harun Yahya documentaries on a regular basis.

HARUN YAHYA DOCUMENTARIES ON ARY TV

ARY Digital TV, which broadcasts from Dubai, has introduced Harun Yahya's works on its "Insight" program. The guests presented a program on "Islam from the Ottoman Empire to Present-Day Turkey, Europe, and Near Asia." This program, which is broadcast in English during the news hour on Mondays in Pakistan, India, Bangladesh, and the Gulf nations, reaches 128 countries.

Guests on the first program stated that readers had made their interest clear through the hundreds of e-mails received every day. They also described how the Balkan and Central Asian peoples who had lived under communism now enjoyed easy access, free of charge, to all kinds of Islamic materials on Harun Yahya's website. Program officials also said that broadcasts with a similar content will continue.

HARUN YAHYA ON KAZAKHSTAN'S AS TV NEWS

AS TV regularly screens Harun Yahya documentaries. In 2003, its special news report covered the conferences held in the country and revealed the ensuing positive effects by interviewing members of the public. Kazakh-language documentaries are also regularly shown by Daghestan's TNT and Mahachkala TV stations and Kyrgyzstan's OSH TV station.

INDONESIAN-LANGUAGE DOCUMENTARIES

The Harun Yahya documentary set prepared under the name of “Proofs of Creation” includes “The Secret behind Matter,” “The Collapse of the Theory of Evolution,” and “The Creation of the Universe.”

Indonesian-language documentary sets, the “Harun Yahya Series,” consist of “Satanism,” “Allah Is Known through Reason,” “Love and Co-operation in Living Things,” “The Collapse of Communism,” “The Glory in the Heavens,” and “The Miracles of the Qur’an,” and others.

Documentaries are broadcast on various channels and via Harun Yahya websites. TPI, a private channel, regularly airs these documentaries, as does Ar-Rahman TV. Many others have requested permission to do so. One of these is the Indonesian state channel TVRI (Televisi Republik Indonesia), whose producers were greatly impressed after watching the “Architects in Nature” and stated their desire to broadcast documentaries as well.

Another element that reveals this great interest is the high number of sales. An official from NCR, which distributes them, reported that more than 400,000 were sold in six months. He also stated that this was the first time there had been such a high demand in such a short space of time, and that demand was still rising.

URDU-LANGUAGE DOCUMENTARIES

Many Urdu-language documentaries are broadcast by television channels in Pakistan and India and shown by volunteers at public mass screenings. For example, 7,000 copies of “The Miracles of the Qur’an” were made by an Indian charity and handed out free of charge. They are also shown at conferences and seminars organized by the same foundation.

These documentaries are broadcast in Pakistan by Indus Vision and Mutual Cable TV, and in India on such channels as WIN TV, CMM Broadcasting Network Limited, and AASTHA TV.

A Few of the Many Messages Received

It was TV channel through which I got to know the works of Harun Yahya and the website. It’s almost two years since I’m reading the books and my life is totally changed. Now I can find any answer to my question, only what I have to do is log on to the web. Mr. HarunYahya is the only hero of my world. ...

Annie Jamshed, Pakistan

I am always interested in such documentaries which are easy to understand rather than the confusing lectures by many “wise” people. I saw Mr. Harun's work on the Cable TV channel called Indus and it was amazing. It was duned in Urdu and had awesome videos, moreover every bit in the program was so easy to understand and practical at the same time. I really praise the efforts of the author. Allah bless him. Is there any way that I can personally e-mail him. It will surely be a great inspiration.

Salman Ali Khan, Pakistan

I watch your programmes on Indus TV regularly. I really admire your work on Quran & Science. You have done an excellent work for Muslims. Your work will help in eradicating the non-Islamic thoughts and philosophies which are prevalent from at least 10 or 11 centuries. It is the first time that Quran is understood in the light of Science. All of those who are working in this direction will help the Muslims to be a practical Muslim. Your work is absolutely demanding in today's world. Best Regards.

Shah Alam Zaidi, Pakistan

I have been reading your pages most of the day. I was first acquainted by a television programme about Harun Yahya. I am very impressed by his articles and way of thought especially science & Quran.

Abdul Rahim Soomro, Pakistan

May God bless you always, you are doing a marvelous job for your religion, all Muslims should be proud of you. We need a platform to explain and defend our religion and you sure have provided us one. I have seen documentaries based on your books on "INDUS VISION" and I am very very much impressed by your work. May Allah give you more strength to continue with your work. I am just a 20 year old and I think it would be a treat for people of my age group to read your books because we need them to guide us. I would love to continue my studies in the field of Genetics and computer sciences in the light of Quran following your footsteps. It would be a pleasure for me to do something for you.

Sayed Sarah Saleem, Pakistan

... As I've mentioned I'm a medical student in my final year. I came to know about this site through a programme shown on Haroon Yahya's work and books on Indus Vision. I was so fascinated and impressed by this programme because whatever little miracles I've seen during my life as a student in the hospital were so marvellously put forward by him. I'm talking about the miracles of Quran and the very creation of man. I appreciate his work fully.

Malay-language Documentaries

Among these documentaries are "The Collapse of the Theory of Evolution," "The Creation of the Universe," "The Secret behind Matter," "Miracles of the Qur'an," "The Fact of Creation," and "The Miracle in the Cell."

Documentaries are broadcast on TV3 and an Internet TV station known as Cyberjaya TV.

Cyberjaya TV, which is broadcast by satellite and seen in some sixty countries, regularly screens Harun Yahya's documentaries and shows programs that introduce his

works. One program, screened on 26 May 2004, provided detailed information about Harun Yahya's work in Malaysia.

Displayed above is a poster for the "Signs of the Creator" set. To the side is a picture of the documentary set distributed during conferences held in Malaysia.

Arabic-language Documentaries

Among these fifty or so documentaries are "The Mystery of the Deep," "The Splendour in the Seas," "Solution: The Values of the Qur'an," "The Prophet Abraham (as) and the Prophet Lot (as)," "Jesus (as) Will Return" and "Marvellous Creatures 1 and 2." They are shown on television channels in many Arabic-speaking countries and attract enormous interest.

As is the case in other countries, they are also shown in schools and conference and meeting halls. For example, Morocco's Casablanca University uses them as teaching aids and screens them in university conference halls. Some producers also use long extracts, such as Unity TV, which broadcasts in Iraq. Programs about the theory of evolution on this channel make wide use of these documentaries.

Many more are being translated. Broadcast on Azeri state television, they are sometimes screened en masse in local cinemas. Some of the channels that show them are Az TV, Space TV, and Lider TV.

One of the Messages Received

Dear my brothers,

While in our day the West tries to show Islam as a religion of terror, we are in need of wise and intelligent people who can talk about the facts of our religion. I am happy that the Muslim community has a scholar as Harun Yahya. May Allah protect him and all faithful Muslim brothers.

Last year I watched a documentary based on Harun Yahya's book and liked it very much. Last December I borrowed a book of Harun Yahya from one of my friends and read it. I also learned a lot from it and liked it very much. When I visited your website, I realized that

many books were in Azeri language and many other foreign languages and felt so happy. Thanks for all your efforts. I wished that I could be of help to these holy works. I wish you success in the future and forgiveness from Allah on the Day of Judgment.

With my best wishes,
Zahir Ahmadov – Azerbaijan

This website provides services in twenty-four languages, especially English but also Arabic, German, Russian, French, Indonesian, Italian, Malay, Chinese, and Serbo-Croat. Messages of support, some of which are given below, pour in every day.

It is certainly the most rational attack on evolution that I have ever read. This website and all your sub websites are extremely thorough and compelling. We as Muslims must be proud at our hero (!) Adnan Oktar. You have really inspired me to lead as young student an idealistic devout life to God alone and follow His path and logic of the Quraan, our sole undisputed source.

Mustafa Burqun, The Netherlands

Salam Alaikum. Your work is inspiring and I pray that Allah swt rewards you for the free downloads of your books available from your website. The website itself is so beautiful and huge that it took me weeks to read every bit of it and I enjoyed it all. Your website and work has inspired me to start work on my own website and collection of articles, though not much but I hope they will be of some help to those who view. Thank you and may Allah swt reward you with Jannatul Firdaus. Aameen

Akbar Khan, Pakistan

This is one of the most important Islamic Website I have ever read. Adnan Oktar writes extremely well and provides much needed research into the history of the battle between Islam (theism) and Epicureanism. This Website clarifies what is at stake and makes the contrast quite clear between the two antithetical and antagonistic worldviews of Materialism and Islam. This website is highly recommended for anyone who wants to understand the underlying ideas behind our current moral debates : (certainly we as muslim youth living in the West).

Sara Madhab, The Netherlands

Dear Mr Oktar, I am so glad that you have designed these wonderful websites, books and movies for Islamic Education. So many teenagers who are confused about Islam will be able to understand it much more clearly, as I have, so thank you. This website has also helped non-Muslims understand Islam more, too. You have motivated me to learn more about this world and its relation to Allah and Islam, and I, too wish to write books on this matter - esp in relation to Science. InshaAllah, I will one day. I hope I get to see you one day and thank you personally for helping spread the Qur'an's word and helping me to stay on the right path. Yours truly, Sadia (A keen 'student' of yours)

Sadia Mohammed, England

Thought provoking site helps in realizing man his real place in the universe a tiny speck of nothing ... and has greatly helped me in understanding Islam as it was meant to be and not as I used to experience it. SubhanAllah, MashaAllah and JazakAllah...

Husein Najmi, Pakistan

Assalam o alaikum, I don't have words to describe the impact that Harun Yahya's books have imposed upon me. I always had been a pessimist but find hope in every thing. I strongly want to suggest that there should be a Harun Yahya school or the books and materials should be included in all muslim countries' education curricula.

Sameera Siddiqui, Pakistan

As salamu alaikum warahmatullah. Your site is the best Islamic site I have ever visited. It is really an eye opener for everyone. Your books are really great. May Allah reward you much for your efforts of trying to spread the truth.

Jihada Brillantes, Philippines

This is a work all people of intelligence and critical judgment will want... no single "islamic" website now available covers the ground as well or as extensively... These books fulfilled my own conception of the role of the man of ideas in the world of men. Harun Yahya is a rare man and his website is a rare one... Wassalam...

Nafisa Sabrien, Tunisia

When my biology teacher first assigned the book by Adnan Oktar for extra credit reading I was terrified of what I thought would be a book full of confusing arguments that were way above my head. To Oktar's credit this book discusses difficult and complex scientific concepts in a clear, easily understandable format. I would recommend it highly to anyone with an open mind.

Nadia Irfaak, Damascus

I thoroughly enjoyed this Website. In it Harun Yahya uses the principles of logic and recent scientific evidence to answer the big questions. It is a very concise website with excellent arguments (May God bless you for this work H. Yahya ! ! !). A good summary of scientific information dispelling the ancient myth of an accidental universe.

Zina Haddad, Qatar

=I thank Harun Yahya very much for covering some of the most difficult concepts of biochemistry — like bioenergetics, metabolism, enzyme kinetics, thermodynamics, membrane transport, cell signaling, regulatory mechanisms, transcription and translation, signal transduction, and DNA replication and recombination — at the right level for everyone.

Dr. Elisha Umarri, Sweden

This site is wonderful. Harun Yahya's books are something extraordinary. I've translated a book in Italian, I'm working at a second book that will be ready soon. Please, if you are able to translate, help this site in spreading Islam in your mothertongue. Sara.

Sara Crovetto, Italy

May Allah Almighty reward Harun Yahya and his team for spreading the word of Islam in such a manner for us to understand. Thanks for allowing myself and my family to see the light through your works, Alhamdoelielaah... Every day I am amazed to learn more and more... I print certain articles and take it home to my family to read and learn... I cannot wait to get to work early morning to read the wonderful works of yourselves before my day starts... lunch time I read and learn... May Allah Almighty grant Harun Yahya and his team a long and successful life on this dunya and in Aagierah InshaAllah... May Allah Almighty grant Harun Yahya and his team the Jannah InshaAllah... Shukran also for the wonderful daily teachings during the month of Ramadaan Alhamdoelielaah... Wa alaykoem salaam...

After reading "The Disasters Darwinism Brought To Humanity", now I really understand what Communism is all about. Before I almost believed in Communist idea like

many of my friends. Thanks for what you've done! I keep on looking for more Harun Yahya Books, Never had enough of them!

Saiful Hj Mohamad Saleh, Malaysia

Assalam alaikum Br. Harun Yahya. Whenever I read your articles on your site, I'm moved. Masha Allah, you are doing good. May Allah reward you for this and May Allah put us all on the Straight path, the path of those He has chosen for Paradise. Ameen.

Syed Jamaluddin, USA

Like too many others in my school, my journey to becoming a HARUN YAHYA addict was a slow, steady build. Yes, it was through first reading "The Secret behind matter" essay that I came to admire him. And his books on culture, freemasonry, theology, science, history and education... So I wanted to thank you for removing all my doubts about metaphysics, Islam and God. I couldn't have been more right!! I've had these books for, maybe, 19 months now and I'm still finding, savoring and rereading these excerpts. So many topics covered - from Genetics to radical secret elements within some zionist elites. These days, whenever someone writes about so many subjects, there's always a suspicion that we, the readers, will find ourselves slighted - how can one person actually excel in so many areas and still retain quality and grace. HARUN YAHYA /ADNAN OKTAR is a stunning example of someone who can and if you're anything like me, these books will rank on your 'most rewarding purchases' list.

Farida Hochac, Jordan

Salam, since over the past three to four years that I have known your web site, alhamdulillah I have been much more enlightened on so many issues, may Allah SWT reward you all of us amin. Please it is in respect to your vast knowledge that I humbly for the sake of Allah request you to consider coming to Nigeria(Abuja FCT) to deliver any of your conferences, so that we can have the privilege of interacting with you. May Allah make it easy for all of us. Once more jazakAllah bi khair. Massallam.

Thanks for the information. I have just finished reading the complete article on "how to avoid the war."

I am very happy to know and find out that Br Harun Yahya is not only a great author and deep thinker, but also a great man of wisdom and a creative peacemaker. His article is so just and fair to all parties involved, that it should be adopted as platform for peace negotiation instead of war. It is the only article among all the others I have read that has hope for peace in it due to its creative approach.

I personally thank Br. Harun for his article and his creative approach to the current crisis. I may even suggest that Br Harun Yahya would initiate and lead an independent peace delegation or through United Nations to promote his peace initiative to all parties concerned to bring about peace and avert an imminent war and its disastrous consequences.

Bachir Mabizari, USA

Just read your article on Terrorism and Islam:

What an eye opener! Thanks for writing a thoughtful article. Myself being a Christian, I started to harbour certain disdain towards Islamic religion in general due to the numerous 'islamic jihad' terrorist acts.

Thanks for clearing things up. I now see that those who blew up those two towers in New York are nowhere close to true Muslim believers than those who label themselves as Christians and also commit terrorist acts.

Great work, keep this up!

God Bless You/Allah Bless You for your work via your website! I am a Jew and yes, I have supported the return of the Jewish people to Palestine. But you are honourable people and you speak the truth with honour and you do Islam a great service. You are fair and I can not deny that the Palestinians deserve justice, recompense and a decent life for themselves. When you reach out the hand of brotherhood and the loving kindness of your religion, I cannot turn it away and return anything other than respect. Thank you for pointing out the hatred of Nazism and Anti-Semitism and the evil that was done in Europe.

I pray for peace in Palestine, reconciliation of Arab and Israeli, Jew and Muslim and thank you for your work.

Reuben M. Vabner, Dobbs Ferry, New York, USA

As an Israeli I am greatly encouraged to see that there are people opposed to the Arab-Israeli conflict and wish to find a fair solution to it... This sincere intervention of yours has

had a profound impact on me. I applaud the author's humane and moral standpoint.
Respectfully yours,

Dr. Aryeh Finkelberg

Thank you very much for your writings. Muslims, Jews and Christians believe in peace and desire the well-being of mankind. It is sad to see that these important values are ignored by radicals who represent an obstacle to peace between Arabs and Israelis.

I am most curious to see Harun Yahya. Your works are really splendid and praiseworthy. God must have inspired them in you. I am a Christian and have Islamic connections. I was looking for a reason why God should want me to bring a Christian and a Muslim together. Thanks to your website I am now able to evaluate things from a very different perspective. Having Harun Yahya as a friend and mentor will help us better understand the differences and similarities between our faiths.

Michele Tolu, Nigeria

Wow. I have spent hours on this site reading all of these articles. I am Jewish and have recently been looking around for information on antisemitism, its origins, and why people are so full of hatred not only for Judaism but many other religions. Your site has given me a great deal of enlightenment about many things.

Katie K., USA

I've visited your beautiful and interesting web for the first time and I'm really amazed by your excellent work in promoting the understanding between the three major religions in the world.

I want to offer my services to get translated into Spanish any work you consider apt for me. I'll be able to do that with God's help in my free time and totally free of charge for you.

I am greatly impressed by your works as it quenches thirst of a wandering soul in search of truth. There is no other reason except the pleasure of Allah, because your knowledge enlightens my soul. I consider that you are one of the great friends of Allah.

Waheed Ahmed Dabbaagh, England

Excellent books. I have read The Evolution Deceit, For Men of Understanding, The Truth of this Life, & Perished Nations and have thoroughly enjoyed them. You are my favourite author without doubt. I have studied physics at Oxford University but always had a problem with Darwinian Evolution and Islam until I had read your books...

Asim Qureshi, England

I would like to sincerely thank Harun Yahya for writing his book, "Evolution Deceit". His work has helped me in strengthening my iman and has also helped me in showing others the truth about the theory of evolution. I recently had to do a debate on creation vs evolution and by the Grace of Allah, I believe I succeeded in showing them the truth of creation, Al Hamdulilah.

Khalidah Ali, Pakistan

Excellent books that challenge Darwinism. Even some of Harun Yahya's critics have admitted that he makes a good argument. I hope Harun Yahya writes some more books on these topics, because his insight is refreshing.

Micheal Geluk, Belgium

As a professor of biological sciences, and a scholar who was trained all my life at the American University in Beirut, and then from the University of Illinois, USA, I was fascinated and very much impressed with the writings of Harun Yahya. Dr. Ahmad H. Sakr, Ph.D., President of Foundation for Islamic Knowledge

I've watched many educational movies here in the US that only talk about everything evolving from mother nature. I'm a muslim now and think that your documentaries are profound and should be seen by everyone. I use your videos in my homeschool with my children. I want them to learn the right way.

Sarah DeFlumeri, USA

I believe that we have an obligation to educate our children in the ways of the spiritual world as well as the world they live in and give all tools they might need to make the right decision for themselves. And I think your website is the best platform for the Islamic vision.

Prof.Dr. Sacha de Hond, Belgium

It is only with the guidance from Allah that I happen to have come across this website for the first time since searching about Islam. I look forward to continue reading the many

articles and literature featured on this amazing site which is full of information to quench the thirst of any individual seeking knowledge and truth.

Some messages received at www.servingislam.com

Many visitors to Harun Yahya's websites help spread of Islamic moral values to the best of their ability. Some of these messages of support read:

4I have just come to know about this wonderful site. The works of Harun Yahya are really worthy for the people who think about the life. May Almighty Allah give him and his team involved in this project the best in here and Hereafter. I too wish to spread Islam and I feel your works are best for this job. I wish to spread this message first in my state, Kerala in India. Presently I'm looking for someone who knows my mother tounge (Malayalam) to translate this Video works. Insha Allah, I will get and will do this work.

Mohamed Iqbal, India

It was a few months ago when through <http://www.discoverislam.net/> I got to know about <http://www.harunyahya.com>. And since then my perception of life has changed immensely. My heartfelt thanks to Harun Yahya. I am going to translate some of your articles/books into Spanish. Thank you very very much and may Allah (SWT) bless you for your noble cause.

Ghazanfar, Spain

Almost every book of "Harun Yahya" in English language I have saved at the hard disk and now I feel all of these must be translated in Urdu, the language of 140 million people of this Islamic state. I can do it but please tell me how !

Dr. Rafique Ahmad, Pakistan

I am amazed by your articles and other speeches. Really I want to thank Allah that He has enabled me to argue with natural scientist and people who are holding it with aid of your articles. I have translated some of your articles into Tamil and they will nearly be pulished in "Alhasanath" the monthly of Sri Lanka Jamathe Islami. Thanks a lot.

Mohamed Faique, Sri Lanka

Dear Harun Yahya, I was very impressed to read about you, your works and your publication on the Internet site www.harunyahya.org and a link in site www.islam.org. In particular, I was fascinated by The Evolution Deceit. I am a Malaysian student, studying Islamic Jurisprudence and Law at El-Azhar University. With your permission I would like to translate this book to Malay. This book would be of great value if published in Malay and it

will benefit current and future generations in gaining a sound and comprehensive understanding of Islam.

Rohidzir bin Rais, Egypt

I have read your book "Perished Nations". The book presents a lesson for Ummah. This book is a remarkable effort. This effort will surely prove to be a way of solution. Will you allow me to translate this book into Urdu? Then it will be a pleasure for me.

Syed Irfan Ahmed, Asst. Editor Monthly Hamdard-e-Sehat,
Pakistan

I am from Poland, and I was fascinated by the wonderful literature and such rich documents Harun Yahya writes. My goal is to not only read them by myself, but also translate them for my dad in Polish language hoping that Insha Allah he would become a Muslim... Thank you very much.

Mariola Szczesny, Poland

This site is wonderful. Harun Yahya's books are something extraordinary. I've translated a book in Italian, I'm working at a second book that will be ready soon. Please, if you are able to translate, help this site in spreading Islam in your mother tongue. Sara Crovetto, Italy

Aslam o Alaikum to all one very excitement to look at this beautiful site and kindness of all muslim ummah and a question to all of us that what we are doing for us, for Muslim ummah, for our next and permanent life I have decided to translate book of Harun Yahya as I can and I put that one on web for my Pakistani people because in Pakistan we are having many serious problem about the future of our young generation. I hope My Allah with me and He helps me. I believe Insha Allah these very precious information soon available in Urdu on web all one have to pray for me.

Adnan Dilawaiz Kiany, Pakistan

Every time I log on the internet my day would be incomplete without visiting and reading the works of Harun Yahya. They reassure me and millions others. I am sure to be steadfast on Islam. Please let your beautiful work be translated to Somali language so that my fellow Somali speaking people understand your work. May Allah Bless you.

Hussein Abdullahi, Journalist, Kenya

I am very amazed to see your site. I have never seen this site on these subjects. It helps muslims and non muslims to know the actual God (Allah) Who is the Master of all worlds. He is the only Creator of Universe and Heavens. No one can deny these facts which you have written in your site. I heartedly congratulate you for making this site. God Bless you.

Naveed Ahmed, Pakistan

Harun Yahya is one of the greatest scholars and intellectuals in the history I would say. I've read so many other authors, scholars, intellectuals, philosophers and what so ever but he's one of a kind. Nobody has ever done this kind of a work in that much depth as he has done. He made people understand Quran more than ever before. He literally synchronized the information about different branches of science in Quran to the most modern scientific researches and discoveries etc. May Allah always keep blessing him and let him do a lot more for Allah, Prophet Muhammad (sah) , Islam and Quran. I wish I could be able to do something like that in my life or may be help him somehow, I just read Harun brother's life story and it said that at the beginning not many people supported his work. But when you compare that time to now, you can see the change; the support is continuing to grow! And if he had not started his work all those years ago, we would not have this website.

Zaheer Ahmad, Pakistan

Your site can be best described by the following verse, "Rather We hurl the truth against falsehood and it cuts right through it and it vanishes clean away!" (Qur'an, 21:18)

Dalila Ghoraatwaj, Iran

Salam Alekum! I'm very much grateful and thankful to Allah for giving me the opportunity to be able to find literature which is encouraging. I'll do the best I could to be of help for the spread of your works, aside from that encouraging more muslims to participate in your endeavour. May Allah help us all.

Marife Prima Bolalin, Philippines

It is wonderful to know that somebody is helping to combat the theory of evolution, which has been so fatal in eradicating God from the minds of so many people of all religions. On a personal level, your books, like The Evolution Deceit and Darwinism Refuted, have increased my imaan and removed doubts that had infested my mind, due to propaganda from the media, as well as from school "education". I pray that Allah rewards you for your works and intentions, and pray you continue.

Muhammed Ameen Sidat, England

It was a pleasure being introduced to this site by a friend. I have enjoyed and benefited a lot from the materials here personally and also as a source of information in my Islamic Dawa presentations. May Allah reward you all and Bless the Umma.

Gamel Appiedu, Ghana

I have recently rediscovered this site and needless to say I would be lost without it, it is definitely up there with the best sites in the world. The collaboration of anything and

everything to do with the truth and of Islam is all under one roof, all the information is stipulated and articulated in a simple and understandable manner. ...

... I absolutely love this site as do many reverts to Islam. If non muslims would just open their hearts and minds they would see the truth is out there and it isn't as far fetched as they would imagine. God bless.

Metta Mehtap Ferguson, Sydney, Australia

These books are an absolute treasure. I only wish I could afford to buy one for every Muslim in America, as it is something our community desperately needs. The writing style itself is beautiful, the insights are beautiful, and God willing this work will help many Muslims and non Muslims alike to find the beauty inherent in Rational Islam. Every essay I read touches my heart, and causes me to pause and feel a great happiness that we have this man in our midst, who may help us to bring about a great revival of Islam in America.

Hamida Grouthay, USA

Assalamu Alejkum to all of you!!! You people have opened my eyes and my ears, may Allah swa give you all His blessings, you all make a huge impact on many people. I myself would like to help you in any way I can. Contact me please!!!

WWW.MEDIAMONITORS.NET

Opened in 2000, this website brings together well-known researchers, academics, and writers from all over the world. Articles on matters of day-to-day interest for everyone are published on this website, which attracts some 5 million visitors every month. To date, it has uploaded more than fifty of Harun Yahya's articles.

Moroseness and Pessimism

Islam is not the Source of Terrorism,
But Its Solution

The Real Ideological Root of Terrorism is Darwinism and Materialism

“Organising acts of terror against innocent people is utterly against Islam and it is unlikely that any Muslim could ever commit such crime. On the contrary, Muslims are responsible for stopping these people, removing "mischief on earth" and bringing peace and security to all people all over the world. Being a Muslim cannot be reconciled with terror. Just the contrary, it is the solution and prevention of terror.” (From "Islam is not the Source of Terrorism, But Its Solution," carried on www.mediamonitors.net)

In his "Islam is not the Source of Terrorism, But Its Solution," Harun Yahya called for commonsense reflection from both America and the Islamic world in the wake of 9/11 and proposed solutions designed to prevent terrorism. Some of his articles that are of great interest to Muslims and propose joint solutions to Christians, Muslims, and Jews have been carried on this website.

Why is France So Afraid of Religion?

“France has turned into a nation that fears religion, religious morality and religious people. However, this fear is groundless. Actually, it is not religion, but the absence of religion that should be feared... France's fear of religion is unnecessary. In societies where war, conflict, violence and injustice hold sway, there is no religious morality.”

(From “Why Is France So Afraid of Religion?,” carried on www.mediamonitors.net)

Behind the Scenes of the Iraq War

In his "Behind the Scenes of the Iraq War," Harun Yahya examined the truth behind the war in Iraq and called upon the whole world to a “peace of civilizations.” He also put forward an important project, an “Islamic Union,” that would establish peace between the Western and Islamic worlds.

WWW.ISLAMICITY.COM

This website, which is visited by people from more than 100 countries, is one of America's largest Muslim websites. To date, it has carried dozens of articles by Harun Yahya. Since January 2001, more than 300 million people have visited it.

Above can be seen the faith-related articles "The Relativity of Time and the Reality of Fate" and "The People of Lut and The City Which was Turned Upside Down," while the scientific articles "Why the Theory of Evolution?" and "The Gnat" appear below.

WWW.HOPEWAYS.ORG

The Hopeways website, which encourages the growth of interfaith dialogue and tolerance, contains articles on these two subjects in English and Hebrew.

The site editor recommended one article in a notice issued to its readers:

"We are delighted to publish an important article by our friend Harun Yahya of Istanbul, Turkey."

Harun Yahya is a regular contributor to this website, which describes him in these terms: "Harun Yahya's books appeal to all people, Muslims and non-Muslims alike, regardless of their age, race and nationality, as they center around one goal: to open the readers' mind by presenting the signs of God's eternal existence to them."

“Let us Join Forces Together” (Hebrew)

“Let us Join Forces Together”

A Message from a Reader

One message received in the wake of “Islam’s Acceptance of Judaism and Christianity” read:

“I do agree with Harun Yahya of Istanbul, Turkey. All people who have faith in God should unite to defeat the godless ones. I would like to add one comment to the very inspiring verse from the Qur'an which Harun Yahya has kindly quoted: All nations are expected to follow God's will without fail, and to do good deeds in order to earn His reward (Qur'an, 5:48). A quote from the Bible in Leviticus or the epistle of Matthew: Love your GOD with all your heart and Your Neighbor like yourself... my understanding of defeating hate is "We MUST first Love GOD, then I then the other.”

This notice which appeared in various world newspapers and magazines was also published on the Hopeways site. It called on the People of the Book to unite.

This article, “Islam and the People of the Book,” was published on the Hopeways site in both English and Hebrew.

“Uniting against Radicalism,” which appeared on the website front page in January 2005, was recommended by the site editor in the following announcement:

Since the 9/11 terror attacks, many believe that the world is going through a "Clash of Civilizations" as described by Samuel P. Huntington, mainly between the Islamic world and the Judeo-Christian West. This perception is often enhanced by violent groups who claim to act in the name of Religion. However, all three monotheistic religions also preach benevolent values, such as peace, love and compassion. It seems, therefore, that each of the three traditions offers its followers a choice between militant interpretations and tolerant ones. The renowned Islamic scholar, Harun Yahya of Turkey, suggests that this choice is heavily affected by human tendencies and modern political ideologies. In his article, "Uniting Against Radicalism, Yahya claims that the radical mentality is diametrically opposed to the very essence of Islam and thus, those who preach hatred and violence cannot be seen as genuine representatives of Islam. Moreover, he thinks that only a joint action by true believers - Christians, Muslims and Jews - can put a stop to the clash between fanatics on all sides.
